Introduction

This document includes a list of all the enhancements and bugs related to 9.1. The forms are listed in alphabetical order by form name.

Enhancements

ATT400P.FMX Attendance Report Form

SCR28450

CRM Case No. – 146-11901

There is now an 'Include Non-Registered Students?' checkbox on the Attendance Scan Sheets parameter form. This check box allows you to select whether or not non-registered students will display on the Attendance scan sheet (ATT402R or ATT402AR).

- If the checkbox is checked, registered and non-registered students in the classes display on the attendance scan sheet.
- If the checkbox is unchecked, only students who are registered on or before the date entered in the Monday Date for Attendance Period field display in the classes on the report.

Note: Students who are unregistered or registered after the Monday entered on the parameter form do not display on the report when the 'Include Non-Registered Students?' is unchecked.

BUF476P.FMX Student Timetable

SCR35320

CRM Case No. – 131-26350

A new Student Timetable parameter form and report for Buffalo Public Schools. Day schedule is using ABCDEF that corresponds to their 6 day schedule, that uses Day A, Day B, ... Day F.

CODES.FMX System Codes

SYS587.FMX Subject Performance Levels

SCH140.FMX Secondary Mark Entry

STU161.FMX Interim Grades/Marks Credit Details

CODESP.FMX Print System Codes

CODESR_MR.REP System Codes - Mark Reporting Category

SJ451R.REP St. John's Report Card

SCR33660

CRM Case No. – 1-15099

With this enhancement:

1. Users will be able to define, by subject category, the subject areas and associated performance levels using a new system code screen (SYS587) called Subject Performance Levels.
2. Only when a course's subject category has associated performance levels, the Subj Perf. column will appear in SCH140 for that course. Users will then be able to record performance levels against subject areas in eSIS, for every reporting period directly in the Secondary Mark Entry screen, SCH140. When the performance level mark is recorded for a subject area, the value will be stored by subject category and reporting period. As a result, if another user selects another class with the same subject category, they will see that a performance level has already been recorded for the subject area for the same reporting period by the asterisk appearing next to the word 'View' on the button (View*). This user will be able to change the selected performance level recorded.
3. The levels of performance available to assign to a student will only be those created for the associated subject area in the respective system code table.
4. The performance levels will be archived to STU161 when SYS001 > Move interim grades/marks to credit history = Yes. Users will be able to view and modify all the archived information. No validations will be performed on any of the fields.

5. A new table 'Grade Level Performance' and a Grading Key Legend were added to the Middle School Report Card (the Cumulative Credit Summary area of the High School Report Card is not being utilized for the middle school).
6. The table will always display on the report card, regardless of whether performance marks exist. If no subject areas have been marked to print on the report card, a blank table will display.
7. The Code ('M' or 'I') associated to the level of performance will display as the mark in the reporting period columns of the Grade Level Performance table if:
 - The reporting period selected is a major reporting period
AND.
 - A performance level has been recorded for the subject area for the selected major reporting period
AND
 - The subject area has been marked to print on the report card.
8. The sequence number assigned to the subject area will determine the order in which they are displayed for marking in SCH140 and the middle school report card. The sequence number assigned to the performance level will determine the order in which they are displayed within their subject area in SCH140 and the middle school report card.

SYS965.FMX Certification Configuration

TAW110.FMX TA Configuration

TAW210.FMX Master Assessment Types

SCR33521

This is a client specific enhancement to house requirements for CIM/CAM/PASS certifications in eSIS including setup, tracking and performance through the following:

- New Certification type Curriculum Model
- New Certification Curriculum Model Import/Export utilities
- New Student Standards Years tracking
- Standardized Testing enhancements

Standardized Testing Import enhancements
Student Standardized Testing enhancements
New Work Sample entry and tracking
New Student Performance History for CIM
New CAM Student Detail tracking
New PASS Student Detail tracking

A separate CIM/CAM/PASS documentation has been provided to the client.

New eSIS forms added for the new CIM/CAM/PASS project, which are only for clients who have setup and are using the new CIM/CAM/PASS certifications:

CIMSTART.FMB Certification Start Screen
CCP005.FMB Student Performance History
CCP020.FMB WS Score Entry Individual
CCP030.FMB PASS Student Details
CCP040.FMB CAM Student Details
CCP100R.RDF Student Performance History Report
CCP101R.RDF Student Performance History Report (By Grade)
CCP670.FMB Certification Standards Years
CCP671.FMB Certification Admin Codes
CCP672.FMB Certification Test Types
CCP992.FMB Performance Scales
CCP993.FMB Curriculum Models
CCP994.FMB Curriculum Definition
CCPEX01.FMB Export Curriculum Models/Years
CCPEX02.FMB Import Curriculum Models/Years
STU740.FMB Student Standards Years
SYS110.FMB PASS Assessment Codes
SYS923.FMB User Export/Detailed Report
SYS923R.RDF and SYS924R.RDF Temp Table Error Reports
SYS965.FMB Certification Configuration

Modifications and additions were made to the main eSIS forms for use with the new CIM/CAM/PASS certifications only and will not affect clients who have not setup and are not using the new CIM/CAM/PASS certifications.

SYS256.FMB Types (Standardized Tests)
New Certification column added to denote Standardized Test Type as Certification.

SYS264.FMB Score Types (Standardized Tests)
New Certification (CIM) Type column added to indicate the associated Certification Type for the Score Type.

TAW110.FMB TA Configuration
Show 'PA fields?' option added (TA Java Only).

TAW210.FMB Master Assessment Types
Mandatory column added to denote an assessment type as mandatory making it appear in all teacher's preps in Teacher Assistant (Java Only).

SYS920.FMB Generic/Standard Student Import
New buttons added: Multi Tests, View the Temp Table and Load The Input File Into A Table for CIM/CAM/PASS standardized test importing.

SYS921.FMB Generic Standardized Testing Import Setup Screen
New Formula 2 matching criteria added for CIM/CAM/PASS standardized test importing.
New Student Matching Help button added to outline differences between formulas.
New Copy Definition To Another Test button added to copy the setup definition to another test for CIM/CAM/PASS standardized test importing.

New Challenge Up button added to Part 2 for CIM/CAM/PASS standardized test importing which only appears for Standardized Tests flagged as Certification Type in Types SYS256 System Code.

New SYS923.FMB User Export/Detailed Report

New form to build extract for printing the SYS923R.RDF and SYS924R.RDF Temp Table Error Reports for CIM/CAM/PASS standardized test importing.

New SYS923R.RDF and SYS924R.RDF Temp Table Error Reports

New reports were added to print details from the View the Temp Table sub screen of SYS920 Generic/Standard Student Import for CIM/CAM/PASS standardized test importing.

Modifications and additions were made to main eSIS forms for clients using the CIM/CAM/PASS certifications only and are only viewed when the CIM/CAM/PASS certifications are setup and in use.

SCH631.FMB Standardized Tests Advanced

Certification Details button appears if test is setup as Certification type in Types SYS256 System Code.

STU057.FMB Student Standardized Testing

New Total, PL and Strand fields added for use with the CIM/CAM/PASS Certification enhancement.

STU058.FMB Student Sub Tests Results

New Certification Test Details (CIM) tab added to hold information for use with the CIM/CAM/PASS Certification enhancement.

DCPS454P.FMX District Of Columbia Transcript

DCPS454R.REP District Of Columbia Transcript

SCR32935

The District of Columbia transcript parameter form runs the DCPS transcript and/or the Letter Of Understanding report (depending on the selection made by the user). The parameter form also allows the user to select whether test information will display on the Letter of Understanding. In addition, it allows the user to choose whether the GPA will use final marks only or will also use interim marks from courses in progress when calculating the GPA. Moreover, the user can select the sort order in which the students will display. In order to run either of these reports, the user must have the "Have you run your Official GPA and Rank?" field set to yes on the parameter form and must either have a demographic extract with students or have a student selected on the parameter form.

The Transcript and Letter of Understanding includes basic district information, school information, and basic student information. It also displays the diploma of the student, the graduation date, credits earned, cumulative GPA and class rank. On the transcript, courses taken for each prior year displays, as well as current year completed courses, courses in progress and courses that are scheduled after the current date. Only those courses which have the HS Credit value set to 'Y' display on the transcript. For each of the various school years, the Current GPA, total number of credits earned, the number of days absent and the number of days present display. At the bottom of the transcript, information such as the district mark scale, the course modifier legend, the community service hours (required, earned and needed), and a signature line displays.

The Letter of Understanding displays the student's progress towards his/her diploma. It displays the subject areas required, the earned credits per area, the potential credits to be earned per area, the number of credits still needed per area and the totals of each. It also has the student's test information (if selected) and three signature lines.

EMIS191.FMX EMIS Extract - FY2004**SCR34621****CRM Case No. – 1-20676**

State specific changes for Ohio EMIS FY2007. A new extract has been created for reporting ASQ assessments administered to all students enrolled in a preschool special education program: Student Preschool ASQ/SE Assessment Record (GS). This new extract will be used during both the October (K) and Yearend (N) reporting periods.

SCR33909**CRM Case No. – 1-18152**

State specific changes for the Ohio EMIS FY2007 - Course Master Record (CN) extract.

1. The selection criteria for homerooms was modified: Homeroom external code (homeforms.external.code) is not NULL and is equal to '180050', '180250', '180260', '180270', '180280', '180290' or '196095'.
2. CN260 (column 103) - IF 'Highly Qualified Teacher Definition' on SROH070 is left blank (NULL), THEN defaults CN260 to 'N' - Teacher does not meet HQT definition.

SCR33911**CRM Case No. – 1-18173**

For EMIS FY07, the GH record (Early Childhood Record) is being deleted from reporting periods K (October) and N (year end). This was done to meet the ODE requirements for FY07.

ESIS.FMX Role Menu Start**START.FMX Main (Start) Screen****SCR25805****CRM Case No. – 131-15834**

The 'Parents' button on the eSIS START.fmx and eSIS.fmx now displays in red when a note is entered in the 'Enter Memo' button on the Parent Information screen (STU115). This alerts the users that there is important parent/guardian information pertaining to the student, prompting them to navigate to STU115 to view this information.

To accommodate the change on the Role Menu (ESIS.fmx), two new buttons were added to the Start screen, a Parents button and a Medical button. Navigate to STU115 and STU125 respectively via these buttons. In addition, the existing logic that turns the Medical button red on the START.fmx screen is also applied to ESIS.fmx. In other words, when a student has been identified as having a life-threatening medical condition, the Medical button turns red.

EXP010.FMX User Export
SCR23347

The following cosmetic changes were made for consistency throughout the Export Adhoc feature:

- The label at the top of the screen was changed from 'Display Extracts' to 'Display Saved Exports'.
- The label of the button at the bottom of the screen was changed from 'Save Current Extract' to 'Save Current Export'.
- When the 'Save Current Extract button is pressed, a message is generated. The message was changed to read as follows:
"Your current export has been saved, please give it a name."
Also the window title of the message was changed to:
"Your current export has been saved"
- The hints on the following fields were also changed:
User: 'User who created this export.'
Last Restore Date: 'Last date this saved export was restored to be current.'

SCR25710

CRM Case No. – 131-15832

New fields were added to the Demographic category. The new function returns the teacher name.

1. A "get_hfm_teacher_name" function was added to the aa\$sis\$homeform package. The function accepts the following parameters: pupil_number, school, year, semester, term. The function returns the teachers.name value.
2. The following entries were added to the Demographic category of the export. Use the get_hfm_code and get_hrm_teacher_name functions in the aa\$sis\$homeform package. Note that the "d.school" parameter is used so that the homeform information is taken from the school that is extracting the information rather than the students home school.

HDE760P.FMX Hawaii Elementary Report Card

HDE760R.REP Hawaii Elementary Report Card

SCR34513

Changes were made to the Hawaii Elementary Report Card Report.

IMM001P.FMX Immunization Listing and Letters

SCR33431

CRM Case No. – 110-16731

Now, when entering the Immunization Listing and Letters parameter form and nothing is selected on the Overall Status (no Status Options are on the right window), the Series tab becomes enabled. The Series tab displays the Available Series and Status Options to select from. Select which Series and Status to use to filter the students that display on the report. One Series and one Status must be selected if using the Series tab to filter students.

- If selecting a Series and not a Status on the Series tab, a message displays stating that at least one Status must be selected.
- If selecting a Status and not a Series on the Series tab, a message displays stating that at least one Series must be selected.

When selecting one or more Status and one or more Series, the report includes students who have any combination of the selected Status and Series.

Once a Series or Status has been selected on the Series tab, the Overall Status tab is disabled. Alternatively, if an overall Status has been selected on the Overall Status tab, then the Series tab is disabled.

LETTERS.REP Letters

SCR34232

CRM Case No. – 1-12605

A new 'Student Symbol' code '&PARNTNOTL' was created on Codes (SED190). It includes the same selection criteria as '&PARNTL'. The code prints the parents' first name and last name instead of abbreviating it to a title.

If 'Living with Student?' is checked on STU115, the parents' first name and last name are included based on the criteria below.

- If the surnames are the same, the first parents' first name, an '&' and then the second parents' first name followed by their last name prints, i.e. Jason & Mel Jackson prints.
- If the surnames are different, the first name and last name of the first parent, an '&' and then the first name and last name of the second parent prints.
- If on Student Miscellaneous Information>Miscellaneous tab (STU166) 'Mother Deceased' is checked mothers name does not print.
- If on Student Miscellaneous Information>Miscellaneous tab (STU166) 'Father Deceased' is checked, fathers name does not print.

When the student only has one or more guardians that are not parents and who have the 'Living with Student?' checkbox checked on the Parent Information screen, the first guardian's first and last name display on the letter when the letter contains the new code.

MANEXT.FMX Manual Extract

SCR21341

CRM Case No

You will no longer be able to enter the same student into the manual extract more than once. The duplicate record is removed automatically upon saving.

MESD001P.FMX MESD Secondary Report Card

SCR19308

CRM Case No. – 1-13205

Modifications have been made to the parameter form (MESD001P) as follows:

- You are able to print the report cards using a new sort option 'School, Pupil Name'.
- A message appears if trying to select a School Reporting Date that has already been selected on the report card parameter form.
- Only the current year 'School Reporting Dates' appears in the list of values for selection.

ON101P.FMX Provincial Report Card

ON102P.FMX On prov report card - semestered 102

ONT470P.FMX Ontario Status Sheets

ONT470R.REP Ontario Status Sheets

STU750P.FMX Ontario Student Transcript

STU455P.FMX Potential Graduates (ON)

SCR29426

Starting 2005-2006 school year Literacy Test will have only one Subtest. A Student will take Reading and Writing components of the test. If a student fails one of the components, then the student must rewrite the entire test. Pass or Fail is now based at the Test level, not the subtest level.

A 'Gr10 Literacy Test' drop down parameter was added to the following parameter forms: ON101P, ON102P, ONT470P, STU455P, STU750P. This parameter is user independent when saved.

ONT010R.REP Summer School Individual Cover Register
ONT030R.REP Summer Sch. Report 2
SCR35424

CRM Case No. – 1-26954

Summer School L&N Reg'r Cover Sheet and Summer School Reg'r Cover Sheet hours Per Session are now calculated using the Avg (number of minutes per period) number of running terms.

ONSIS
SCR35245

CRM Case No. – 1-22187

For any withdrawn student reported through OnSIS, the FTE and attendance type values are calculated at the time of withdrawal. The registration record associated to the withdraw is used in this calculation.

SCR35151

Performance has been improved after the PAE has been populated.

Parent Assistant
SCR34472

CRM Case No. – 1-19715

Changes have been made to improve the performance when querying for students on the Parent Assistant Create Student User screen.

SAIS
SCR34311

CRM Case No. – 1-19487

This is an Arizona State specific transaction.

A new data element called "Federal Primary Indicator" was added and is reported in SPED Service Participation transaction (Tr.014). It indicates if the SPED Need being serviced is the Primary Federal Need. If the student is found eligible in one or more disability categories, it means the disability category that has the greatest adverse impact on the students' ability to access and progress through the general curriculum is used. This information is found in the current multidisciplinary evaluation team report.

SAIS FY2007
SCR35140

CRM Case No. – 1-24272

From FY 2007 forward, SAIS requires actual membership FTE be submitted for a Kindergarten student. As a result, three transactions were modified to report correct FTE for Kindergarten students:

- Tr.001 - Student Enrollment;
- Tr.002 - Student Readmission;
- Tr.008 - Student FTE.

SYS002.FMX Boards/Districts Detail

SYS597.FMX District Level Comments

SCR28043

1. SCH111 Comments Configuration: The School Comments tab was relabeled to 'Comments', and under this tab you can define Maximum Number of characters (up to 255) for District Comments, School Comments and Teacher Comments.
2. The District Level Comments 'Description' field in SYS597 stores up to a maximum of 255 characters.
3. The Teacher Level Comments 'Description' field in TAW800 stores up to a maximum of 255 characters.
4. The District Level Comments Reports (SCH301R and CODESR_MR) have been modified to display up to the maximum of 255 characters for the comment descriptions and the Teacher Level Comments Report (TAW800R) has been modified to display up to the maximum of 255 characters for the comment descriptions.
5. You can access SCH111 (Comments Configuration) from SYS002 or SYS040. If accessing SCH111 from SYS040, the District Comments field is read-only.
6. TAW061, TAW065, TAW060, SCH144, SCH680, SCH681, and SCH685 have been modified to reflect the comment size change for the Teacher and District comments. This ensures that the comments created display in their entirety on these screens.

SCH093.FMX Team/Group Maintenance Detail

TAWSTART.FMX Teacher's Assistant Start Screen

SCR28059

You can add multiple staff members to a team. This allows multiple staff members to access the same team and its members records without requiring separate logons. For more information see the document Teams Groups 91.

SCH261.FMX Substitute Teacher Security Detail

CRM Case No. – 1-25698

SCR35326

The User Password can now only be entered, during record creation. Otherwise the field is empty and not updatable.

SCH684.FMX Ontario Curriculum Mark Entry

SCR34140

CRM Case No. – 1-18488

A 'Parent Conf' checkbox was added to this screen. A new column Parent_Conference was also added to the table Student_Curriculum_Comments. The default value for this column in the table is null.

- When the checkbox is checked and saved, the column value changes to Y.
- When it is checked off and saved, the column value changes to N.

SED391.FMX Important Dates

SED900.FMX Special Education Lite

SCR34607

Enhancements have been added to SPED Lite to accommodate Ohio state reporting requirements:

1. On the Important Dates system code (SED391) several new fields have been added: External Code, Trigger, Start and Ed Dates, Outcome, PAM, and Non-Compliance checkboxes.

Additionally, two new buttons have been added - Non-Compliance Options and Outcome Options - to allow users to track a unique set of Outcome and Non-Compliance options per Important Date Code.

2.. Within SPED Lite (Imp. Dates/Misc tab), you now have the ability to list important dates that are in effect based on the Start and End Dates defined in the Important Dates System Code table.

Additionally, the Outcome Options and Non Compliance buttons may be enabled to allow users to capture Outcome and Non-Compliance options.

3. The system codes report (codesr_sp) has been updated to include the new data elements that have been added to Important Dates.

SED900.FMX Special Education Lite

SCR34847

A new field Staff Assigned has been added to SPED lite in order to accommodate Ohio's State Reporting requirements. The field allows users to select a teaching staff member from the currently selected school within the current school year. This field is available on both the Least Restrictive Environment and Related Services canvases.

SEW999.FMX SEW Configuration

SEWOR66.FMX Oregon IEP - SECC Supplementary Data

SCR34719

CRM Case No. – 1-18793

1. Within the SEW Configuration screen (SEW999), you now have the ability to set the default values for both the Serving Agency Code and Enrollment Type. If these values are populated on the SEW Configuration screen, these defaults auto-populate on the Oregon IEP - SECC Supplementary Data screen (SEWOR66).

2. You now have the ability to update the Federal Placement Code field on the SECC Supplementary Data screen (SEWOR66), regardless of whether or not the Federal Placement Code field is defaulted from the 'Placement Option(s) Considered' field on the Placement Options tab of the Oregon IEP.

SEWBV06P.FMX IEP at a Glance Report
CRM Case No. – 1-15580
SCR34201

Modifications were made to allow saving the parameter information. This simplifies the creating and reading of the report.

- Information typed in by the teacher on the parameter is stored. Every time someone pulls up IEP at A Glance, The information filled in the last time an IEP at a Glance was run comes up.
- It stores by pupil number, not by IEP or user.
- Fields that are stored are Persons receiving report, Strengths, Motivators, Goal Areas, Behavior Trigger and Comments.
- When IEP at a glance is clicked the stored information comes up and the user can make changes.
- The new Delete icon deletes the stored information. When this button is clicked, the user is prompted 'Are you sure you want to delete?'

The Ontario Special Education Module has been created specifically for the Province of Ontario to meet the business needs for Special Education Services. See the Ontario Special Education documents for details.

This module includes the following functionalities:

Existing Functionalities

This group includes functionalities that are already available in eSIS and that are included as part of the Ontario Special Education Module without modifications to the screens or to the printed reports. The titles of the forms were adjusted to read "Ontario Special Education - Form Name", and the header of all the forms was modified as described in the Common Functionality document.

Pre-referral Interventions

Specifies the process to add, view or modify an intervention or student plan attempted by the classroom teacher.

The functionality was one of the existing Student Plans section of eSIS.

Assign Case Manager

This functionality specifies the process that an Authorized User will follow to assign a person responsible for the student's file in the Ontario Special Education Module.

The functionality was the one currently available in eSIS.

Manage Security by Student

This functionality described the process of assigning access rights to users of eSIS for a specific student. The functionality allows a Special Education Administrator or a Case Manager to grant permission to the files of a single student.

The functionality was the one of the existing section of eSIS.

Notifications/Consents

This functionality describes the way in which an Authorized User can view the letters sent to or consents received from the student's parents, and that form part of a Special Education file. The Notifications/Consents section serves as the entry point to add, view, modify or delete several types of letters and forms.

The functionality was as per eSIS form SEWID05.

Historical Information

This functionality describes the information that the System provides about a student's Special Education file, including pre-referral plans' information.

The functionality was as per eSIS form SEWID30.

Discontinuation of Services

This functionality specifies the process that an Authorized User will follow to indicate that a student has exited the special education program.

The functionality was as per eSIS form SEWID24.

Primary Functionalities

Start the Special Education Module

This functionality describes the information and the options that the System will provide when an Authorized User enters the Ontario Special Education Module of eSIS.

Refer to School Based Team

This functionality describes the process that a Teacher will follow to refer a student to the School-Based Team.

Team Types

This functionality describes the process that an Authorized User will follow to create a Team Type in the Special Education Module. The Team Types were used to allow referring a student's case to different levels depending on the type of services that the student requires. For example, a student may be referred by the School Based Team to the IPRC.

Assign Team Members

This functionality describes the process that an Authorized User will follow to add, modify or remove members to/from a Team. The members of a team are the default Participants in a student's Referral/Review and in the meeting minutes. The Authorized User may override the default selection.

Team Meetings and Meeting Minutes

These functionalities describe the process that an Authorized User or a Team Chair will follow to add, modify or delete meetings and record and close the minutes of those meetings in the Special Education Module.

Student Reviews

This functionality specifies the process to add, modify, or delete minutes related to a student's case review in the Special Education Module. Student reviews may be conducted by a team or by an Authorized User.

IPRC

This functionality specifies the process to add, modify, or delete the Identification, and Placement Review Committee's (IPRC) review in the Special Education Module. An IPRC review may be conducted by an IPRC team or by an Authorized User.

Consultations/Assessments

This functionality specifies the process that an Authorized User will follow to add , assign, confirm, or cancel Consultations or Assessments for a student in the Special Education Module.

Consultation/Assessment Reports

This functionality specifies the process that a Case Manager, or a Consultant will follow to add, modify, delete or print the Assessment Reports for a student. Special security considerations guarantee that the reports can be modified only by the user who finalized them.

Services Plan

This functionality specifies the process that a Consultant/Assessor would follow to create, modify or delete a services' plan for a student in the Ontario Special Education Module. The Services Plan section of the Ontario Special Education IEP Module would be used to record the services received by students who do not have an IEP.

IEP

This functionality specifies the process followed to add, modify or delete an Individualized Education Plan (IEP) including the basic information, learning expectations, services, accommodations, etc., and/or to print the IEP for a student in the Special Education Module.

Transition Plan

This functionality specifies the process followed to add, modify or delete a Transition Plan for students age 14 or older. The System will provide an option to complete the plan as an additional form of the IEP for student's in this age group, or when indicated by the Authorized User.

Behaviour/Safety Plan

This functionality specifies the process followed to add, modify or delete a Behaviour/Safety Plan as an additional form of the IEP for the student's indicated by the Authorized User.

Select Strategies from Bank

This functionality indicates the procedure that the user will follow to select strategies from a strategies bank, when completing the Goals and learning expectations section of the IEP.

Alternative Progress Report

This functionality specifies the process that an Authorized User, a Teacher or a service provider will follow to enter, modify, delete or print a Progress Report for the learning expectations set in the IEP for a student, when the Alternative Progress report option has been selected.

Action Items

This functionality specifies the process that an Authorized User will follow to view his/her action items and edit their status and descriptions.

Contact Log

This functionality specifies the process that the Authorized User would follow to record the contacts made with the parents, the guardian, or other persons related to a student in the Special Education Module.

List and Print Current Special Education Documents

This functionality describes the process followed to view a list of the current IPRC, IEP, or Alternative Progress Report for a student or for a group of students and optionally print the document(s) or view their details.

Ontario Special Education Module Reports

This functionality specifies the process to generate, preview and print the district reports in the Ontario Special Education Module.

Consent for Assessment

This functionality specifies the process to add, modify and print a letter requesting the parents' consent to conduct an Assessment and to record the consent or refusal received from the parents or guardian of the student.

Other Consents

This functionality specifies the process to add, modify and print a letter requesting a parents' consent (of different types) and to record the consent or refusal received from the parents or guardian of the student.

Parent Invitation to a Meeting

This functionality specifies the process to add, modify and print an invitation sent to the parents or guardian of a student regarding a Special Education meeting.

The functionality is the one available in eSIS, with modifications to the printed reports to meet Ontario's specific requirements.

IEP Parent Consultation

This functionality describes the process that an Authorized User will follow to add, modify and print a written request sent to the parents/guardian regarding a student's IEP.

Authorization for Exchange of Confidential Information

This functionality specifies the process to add, modify and print Consent to exchange confidential information and to record the consent or refusal received from the parents or guardian of a student.

Program Placement Consultation Offer

This functionality describes the process that the Authorized User will follow to add or edit a Program Placement Consultation Offer in the Special Education Module. A Program Placement Consultation Offer is a letter that is part of the Notifications/Consents section of the Special Education Module.

IPRC Notice to Dispense

This functionality describes the process that the Authorized User will follow to add or edit an IPRC Notice to Dispense in the Special Education Module. A IPRC Notice to Dispense is a form that is part of the Notifications/Consents section of the Special Education Module, and it is used to obtain the parent's approval to dispense an IPRC meeting.

Notice to Parents

This functionality describes the process that an Authorized User will follow to add, modify and print a generic form to give notice of different types to the parents/guardian of a student in the Ontario Special Education Module.

Acknowledgement to Parents' Request for IPRC

This functionality specifies the process followed to create, modify and/or print a letter acknowledging receipt of a parent's request for an IPRC for a student.

Individualized Equipment Inventory

This functionality describes the process that an Equipment Administrator would follow to add, view, and modify the inventory of ISA-1 and other equipment used by the students in the Special Education programs.

Assign Equipment to Students

This functionality describes the process that an Equipment Administrator would follow to assign or de-assign ISA-1 and other equipment available in the inventory to students in the Special Education programs.

Secondary Functionalities

System Codes

This functionality describes the process followed to populate the codes' tables used in the Special Education Module System.

Configuration Options

This functionality describes the process that the Operator will follow to configure the options available in the Ontario Special Education Module, including:

- Participants
- Text Options and Enclosures
- Considerations
- Reports
- Additional Forms

Manage Security by User

This functionality describes the process of assigning access rights to new users of eSIS by selecting students from a list. The functionality allows a Special Education Administrator to grant permission to the files of more than one student simultaneously. The existing functionality was modified to allow assigning the case managers of the students

The Idaho IEP form (SEWID16) can now be used and configured in the BCSPED architecture without receiving any oracle errors.

SEWOH30R.REP Manifestation Determination Review

SCR35036

CRM Case No. – 1-13561

The following statement was removed, so that it does not print on the document:

'The behaviour is not a manifestation of the student's disability, if the IEP indicated No on item c or d of 1 above'

This report change was required for the Manifestation Determination Review (PO03) as a result of a federal review and the requirements of OSEP.

SEWOH60R.REP PR-06 ETR

SEWOH60.FMX PR-06 Evaluation Team Report Part B

SCR35038

CRM Case No. – 1-14631

Previously, the SPED advanced module did not allow for the tracking of an ETR Meeting Date that is required by the Office of Exceptional Children. A new field called 'ETR Meeting Date' was added to ETR - Part B. The DATE field functions as all other date fields within eSIS, so that when selecting the + button a CALENDAR window opens. This field is required to finalize an ETR. The ETR meeting Date populates the DATE field within the Signature line of ETR - Part B

SEWOH70.FMX PR-07 Individualized Education Program (part 1)

SCR33130

CRM Case No. – 1-13538

Previously, the SPED Advanced module was permitting users to finalize an IEP for a student prior to the ETR being finalized. The Office of Exceptional Children (OEC) indicated that they needed the ETR and IEP process to follow the same procedures that an individual would follow if completing this same paperwork by hand.

The ETR must now be finalized prior to permitting the finalization of the IEP.

SEWOH70R.REP PR-07 Individualized Education Program (IEP)

SCR35037

CRM Case No. – 1-14790

As per the Operating Standards, the IEP must state the beginning of the services which is the Initiation date, the end of the services which is the Duration date and the frequency of how many times for how many minutes a service is provided.

The IEP Report now satisfies the Operating Standards for Duration as defined by the Office of Exceptional Children. The Duration field is now the date the service will end, (the end date that corresponds to the Service). Fields on the IEP screen are now correctly mapped to the fields on the IEP report. The Service End Date was needed to print as the Expected Duration and the Duration and Frequency to be combined to populate the Frequency field. The expected duration and frequency were changed accordingly.

SEWOH78R.REP OH - SPED Progress Report Screen

SCR35035

CRM Case No. – 1-12262

A page break has been added to the SEWOH78 'Ohio SPED Progress Report' for every time the NEED changes.

SEWOH90P.FMX OH SPED Parameter
SEWOH90R.REP OH SPED Report for Preschoolers
SEWOH96R.REP OH SPED Report for Preschoolers
SCR28248

Ohio SPED reports were created for preschoolers that show any student receiving a service/instruction.

Students to be included on the report will meet the following business rules:

- If exceptionality condition external code = 11 and exceptionality condition start date <= 'To Date' selected on the parameter screen by the end user AND exceptionality condition end date >= 'From Date' as selected on the parameter screen by the end user OR the exceptionality 'End Date' is NULL.
- The body of the report includes the student's LRE and Related Services.

SEWOH91R.REP Report for District/School/Disability condition
SEWOH95R.REP Report for SPED Students by School (Detail)
SCR28250

Two new reports were created for Ohio.

SEWOH92R.REP OH SPED IEP Dates Report
SEWOH93R.REP OH SPED MFE Dates Report
SCR29688

This is an Enhancement for the MFE and IEP Dates Report.

The Report allows an end user to generate a report of IEP dates that are due by a particular month / year, and MFE dates that are due by a particular month / year.

SEWOH94R.REP OH SPED EMIS Data report
SCR29691

This form was created to provide EMIS staff with a report of critical EMIS data elements for data verification of SPED.

SLC454R.REP SLC Transcript
SCR34698

CRM Case No. – 1-20531

1. Grade 7 and 8 courses will not appear on a High School Transcript.
2. Only Grade 7 and 8 courses will appear on the Middle School Transcript..
3. Overall Cumulative GPA will display on the Middle School Transcript.
4. All of the information within the Student Information box on both the High School and Middle School Transcript will appear in bold.

SRAZ001.FMX State Reporting Module - SAIS Reporting (AZ)
SCR34314

CRM Case No. – 1-19490

A new transaction was designed for Arizona State Reporting - Early Childhood Preschool Assessments (Tr.024). This transaction captures the elements that are directly related to the Assessment Preschool children are given.

SRCO300.FMX Colorado Non-Traditional Schedule Utility
SRCO300R.REP Colorado Non-Traditional Schedule Utility Report
SCR34899

CRM Case No. – 1-21537

A new form and report was developed for creating non traditional schedules by class type which will be used for attendance calculations.

SRIL001P.FMX ISBE 87-03 Fall Housing Report
SRUT001P.FMX SRUT - Student Record Collection
SRIL442R.REP v4.0.08 Yearly Attendance Cards (IL)
SCR34991

Logic to keep attendance tumbles for the previous year was added. Due to that change the SR procedure, packages, forms and a report were changed to look at the current school year for the attendance tumbles.

SRIA002P.FMX SRIA - Project EASIER
SCR33831

CRM Case No. – 1-17985
SCR35373

CRM Case No. – 1-17985
2006-2007 changes for Iowa Project Easier.

SRIA010P.FMX Iowa Project EASIER - Testing Bar Code Input
SCR35272 (830)

CRM Case No. – 1-24897

Logic was changed to populate the two district elements. The external code of the board/district is used to populate the following elements:

- D0200 - Resident District
- D0203 - Attending District

SCR33869

CRM Case No. – 1-18108

The following elements will be determined as of the effective date of the extract:

- B0110 - Free or Reduced Lunch Indicator
- D0290 - IEP Indicator
- D0320 - Migrant Indicator.

All other indicators are as of the Effective Date of the extract (existing logic).

SRIL300P.FMX SRIL-ISBE
SCR34611

CRM Case No. – 1-20605

Changes were made to the 2006 report. Three new program indicators were added to the form and file.

SRFLSC.FMX SRFL School Control
SRFLDPE.FMX SRFL Format Data Display / Edit
SRFLDFFC.FMX SRFL District Format File Creation
SRFLFTE.FMX Florida Utility Screen
SRFLDSET.FMX SRFL District Setup Screen
SCR34612

CRM Case No. – 1-20585

The school year dropdown to the SR forms now allows any other school year amendments to be performed and submitted for surveys 2 and 3.

SRIL050P.FMX IL-Hearing/Vision Stats
SRIL050R.FMX IL-Vision Stats Summary
SRIL051R.REP IL-Vision Stats Detail
SRIL052R.REP IL-Hearing Stats Summary
SRIL053R.REP IL-Hearing Stats Detail
SCR33060

CRM Case No. – 1-15713

These reports were created to be submitted to Illinois Department of Public Health for both Vision and Hearing from the school District on an annual basis.

SRKS002P.FMX Kansas KIDS Collection
SCR34620

CRM Case No. – 1-20684

For Wichita only:

Enhancement were made to the KIDS Selection Criteria regarding D21 and D22 fields (state and district entry dates).

For [D21]:

Old logic:

This element contains the most recent effective date with specific admission code identifying the student's entry into the school district where the field Admission/Withdrawl Indicator = 'A' on Admission/Withdraw Maintenance (STU030).

New logic:

Gets all the records from [STU030-Admission Withdraw Maintenance] where Admission/Withdraw Indicator = 'A' and admit code matches the admit codes selected on SRKS002P. Reports the most recent effective date from the above selected records. Otherwise reports the oldest effective date record where [STU030].[A/W] = "A"

For [D22]:

Old logic:

Reports [STU106].[Entry Date to Kansas] (that is, students.province_entry_date) for field [D22]. If [D22] is Null; then reports value from [D21].

New logic:

Reports [STU106].[Entry Date to Kansas] (that is, students.province_entry_date) for field [D22]. If [D22] is Null; then reports the oldest effective date record from admission_withdraw history table where [STU030].[A/W] = "A".

SRONSIS1.FMX OnSIS - User Interface
SCR34707

CRM Case No. – 1-20700

Student class enrollment records were previously being rejected due to differences in how class codes were being reported between regular class segments and combined courses.

Now, CLASS segment and SEGMENT section are created for each Combined Class, plus the original records for Class Code with unique number and Combined courses as a Segments.

SRONSISP.FMX OnSIS Parameters Form
SCR34679

OnSIS Parameters (SRONSISP) were modified to use the new SRGETPPL form for querying a single student for Verification.

SROR105P.FMX LEP Program (SROR)

SCR34648

CRM Case No. – 1-20567

The rules were changed for reporting models :

Changed the models business rules

- Reports just '00','21','22','23','24','51' for Model1 and '00','11','12','13','14','15','30','40','51' for Model2
- Model 3 can be anything
- If Model1 is '51' or '52' reports '51' for Model1 and Model2
- If Model2 is '51' or '52' reports '51' for Model1 and Model2

SRUT001P.FMX SRUT - Student Record Collection

SCR35005

CRM Case No. – 1-22392

A new business rule for handling duplicate AM records for Elementary schools which have been generated with a zero membership was added.

The new business rule is "If a student has been in multiple homerooms on the same day, eSIS reports the one with membership. This will be the last homeroom that the student was placed in on that day."

SRVA001P.FMX Student Record Collection

SCR33311

This is phase 9 of the student record collection. The EOY tab was replaced by the the Summer tab. Slect an EOY file to process a summer submission that will include only students with a diploma date within the date range.

CRM Case No. – 1-23821

SCR35166

Student Record Selection, Phase 10 modifications.

SRWI006P.FMX Wisconsin ISES

SRWISTU1.FMX Wisconsin Student Information

SCR32299

This is the Wisconsin State (Milwaukee) specific report.

1. Added additional columns to SRWI_ISES)BASELINE table.
2. Updated the logic to build SRWI_ISES_BASELINE table.
3. Updated logic for 'Calculate Attendance' button and for 'Re-Calculate' checkbox.
4. New 'SRVVIEW' SR Verification/Validation screen is used instead of 'SCH021' Verification Form to allow users to view edit/violation messages. Also, use 'SRVVIEWR' report in place of 'SCH021R' to allow users to print edit/violations.
5. 'SRGETPPL' screen is used instead of 'GETPUPIL' to allow user to select student for verification.
6. A new 'Code Translation 2' tab was added and new items were added under this new tab.

STU105.FMX Basic Student Demographics

SCR34672

CRM Case No. – 1-14478

- An Effective Date of Change canvas has been added to the Tuition Type field, the Tuition Paid by field and the Legal District of Residence field in STU105 (Basic Student Demographics). When modifying the value in either of these fields, the new canvas displays, prompting entry of the effective date of change if it is different from the current date.
- The Tuition Type field was added to the list of fields currently being logged in the demographic change log.

STU105.FMX Basic Student Demographics

STU116.FMX Student Parent List

STU166.FMX Student Miscellaneous Information

SCR35137

The SAIS FY2007 changes required changes to a number of log tables.

1. A new PARENTS_LOG table was created to store Place of Employment information in the work_name column.
2. Four columns were added to the Demographic Change Log:
 - living_with_code column to store information about Leaving With from Parent Info (STU115) screen.
 - dwelling_type column to store Dwelling Type from Student Demographics (STU105).
 - migrant_id column to store Migrant ID# from Student Miscellaneous Information (STU166), Miscellaneous Tab.
 - econ_disadv column, to store Economically Disadvantaged information from VEIS Reporting (NC)(stu260) screen.
 - A client specific script 35137.update_company.tab.sql will set the parents_change_log = 'Y' in company table for Yuma.

STU186.FMX EMIS Detail (OH)

SCR34084

CRM Case No. – 1-19980

This is a client specific change for Ohio EMIS State Reporting. All changes to the STU186 EMIS Detail form are driven by EMIS FY - 2007 requirements.

1. The following fields on STU186 [EMIS Detail Tab 2] have been disabled:
 - Preschool Early Intervention
 - Preschool Student Education Fund Source
 - Weekly Length of Instruction
 - Preschool SPED IEP
 - Kindergarten Experience
2. The 'Attendance Pattern' field on STU186 has been renamed 'PS/KG Attendance Pattern'. The field is only enabled for grades PS and K and disabled for all other grades (using State Code on System Codes > Registration > Grades SYS260).

The preschool data elements have been re-arranged in order to keep disabled elements together and the 'PS/KG Attendance Pattern' field has been moved out of the Preschool block.

3. A new data element 'OGT Graduation Alternative' has been added to STU186 [EMIS Detail Tab 3]. The default value = NULL and there are only two hard coded options: 0 and 1. This new field will be used to define whether passage of one test required for graduation was met using alternative criteria. This is required for the new data element GK420 in the Student Attendance extract.

STU190.FMX Student Incident Summary**START.FMX Main (Start) Screen****SCR27000**

New functionality was added to respect the Current or All query setting selected on the Start screen when accessing the Student Incident Summary screen.

STU475R.REP Student Timetables (Ontario)**SCR27189**

The Student timetable report is producing the correct output when run by homeroom for semester 2.

STU622.FMX Program Instructional Hours by Category**SCR33826****CRM Case No. – 1-17949**

- The radio button default was changed from VIEW to INPUT.
- The default sort order for Program Types is now alphabetical by program name.
- The default sort after query is now alphabetical by student last name, first name.
- The Program School sort order is now alphabetical.

SYS055.FMX EMIS District Information (OH)**SCR34085****CRM Case No. – 1-19981**

- Three new data elements were added to the Fall/October tab in SYS055. These elements are reported in DQ District General Info Extract in FY2007 only, to report 2005-06 data.
- Three new data elements were also added to the Yearend tab. The Family Literacy Service option has been disabled and a new data block 'District Assessments' has been added. The data entered in these new fields within the Yearend tab is reported in the new EMIS extract DT District testing.

STU200.FMX Proficiency Extract (OH)**SCR34625****CRM Case No. – 1-20678**

This is a client specific change to the Ohio Pre-Id (Proficiency) Extract - STU200. SSID has been enabled in the Pre-Id extract in Field #10 (columns 131-139). A student's SSID information is now extracted as displayed on the Ohio-specific 'SSID' screen STU985 in the [SSID] field.

STU555.FMX Analyze Diploma
SYS050.FMX Diploma Type Maintenance
SCR34718

CRM Case No. – 1-17202

The purpose of this enhancement was to exclude Career Program Courses by Course Types from counting toward a diploma.

- A new button 'Exclude Course Type' was added to Diploma Type Maintenance (SYS050).
- A new form 'Exclude Course Types' was added to SYS050 to identify Course Types and define Start/End Dates to apply zero credit for the diploma.

On the 'Exclude Course Types' form the Start Date and End Date are not mandatory fields, and the dates are compared to either the date the student completed the course (if the course is achieved) to Credit Detail, or the End Date of a course length if the course is taken in Student Course Selections.

- If the Start Date and End Date are left null, the corresponding Course Type is permanently ineligible for credit for the selected diploma.
 - If the Start Date entered and the End Date are left null, the corresponding Course Type is ineligible for credit for the selected diploma starting as of the date entered in the Start Date. Any date prior to the Start Date, the Course Type is eligible for credit for the diploma.
 - If the Start Date is left null and the End Date is entered, the corresponding Course Type is ineligible for credit for the selected diploma up to and including the date entered in the End Date field. Any date after the End Date, the Course Type is eligible for credit for the diploma.
 - If the Start Date and End Date are entered, the corresponding Course Type is ineligible for credit from the date entered in the Start Date field up to and including the date entered in the End Date field. Any date not within that range the Course Type is eligible for credit for the diploma.
- A new code '8' was added to the 'Zero Credit Indicators' to identify ineligible Course Types. Code, '8', appears in the 'Zero Credit.' Column of STU555.FMX Analyze Diploma if the Course Type for a course was designated in SYS050.FMX Diploma Type Maintenance as excluded for the diploma.

SWCS450R.REP SWCS Report Car

CRM Case No. – 1-14321

SCR26596

The Honor roll flag calculation now follows the GPA calculation Formula.

SYS205.FMX Living With

SCR34313

CRM Case No. – 1-19488

A new transaction was designed for Arizona State Reporting - Early Childhood Program Participation (Tr.023). This transaction captures the elements that are directly related to the Programs that Preschool students are participating in.

YUM005R.REP Secondary Report Card (YECC)

SCR35098

CRM Case No. – 1-22328

Modifications have been made to Yuma high school report card (Yum005r) as follows:

1. Layout changes:
 - Removed School District
 - Added logo to school information block at top of report
 - Moved and changed headings on student information block
 - Added two new columns under 'GRADE'
 - Removed Credit column
 - Added more rows to the body of the report and shaded every second row. If a student has more than 9 rows of data for courses, any courses after the 9th row will be truncated.
 - Re-formatted the Grades, School Message and Attempted Credits section
 - Added postage label
 - Added school information and logo at bottom of report
 - Removed the period after the middle initial in the student name
 - Capitalized the first letter of the first and second comment if '\$', '#' or '@' are used in Report Card Comment Maintenance (SCH080)
 - Printed report card on one page per student
 - Accommodated the layout restriction of the form paper

2. Logic changes:
 - Marks earned in previous reporting periods (up to two max) populate to the report card
 - The logic of calculation on Cumulative-Credits Attempted and Completed will match the logic found on YUMA's transcript (YUM454R)

Note: Each school should be set up with exclusive course length. A school should not offer a combination of 6, 9 or 18-week courses. The report card will not function properly if a combination is offered or the course length is longer than 18 weeks.

Bugs

AA\$SIS\$CLASS2CREDIT SCR34097

Diploma Category Assignment on Courses are now moved to CREDITS when a course is dropped and the Diploma Override check box gets checked.

ADH030.FMX Ad-Hoc Fields SCR33778

CRM Case No. – 1-17475

A school user is no longer able to see and update other school's adhoc fields.

ADH040.FMX Enter Ad-Hoc Fields SCR34565

An oracle error is no longer generated when attempting to enter a value less than 'Low Value' or more than 'High Value'.

ATT_CV.MMX Menu SCR33713 (BZ #3602) CRM Case No. – 1-17042

Previously, when accessing the online help in forms ATT150, ATT120, ATT125, and STU010, an error message appeared at the bottom of the screen : "Display SIS Acrobat PDF Help File". Now, when accessing online help from the above forms, an eSIS Help window opens.

ATT005.FMX Daily Attendance - Class Entry ATT026.FMX Cond. Att Entry ATT105.FMX Period Attendance - Class Entry ATT106.FMX ATT Condensed Entry SCR33171

CRM Case No. – 1-15817

The Oracle table SEC_CLASS_ATTENDANCE_ENTRY was changed into an Oracle Global Temporary Table to improve performance of Attendance Entry screens.

ATT090.FMX Registration Verification by Homeroom (Daily) SCR33338

CRM Case No. – 1-14394

This is for Ontario clients only.

Picking the default Province from the Company file and setting the field update allowed property of FULL_PART_TIME for Ontario only in CG\$key_startup.

Previously, in ATT090 (Daily Att. - Registration Verification by Homeroom), the Full/Half/Part time field was protected against update. Now, the Full/Half/Part time field can be updated

ATT096.FMX Mass Registration Verification SCR32908 (CR 3805) CRM Case No. – 1-14188

Previously, when running the mass registration – verify all students, if a student already had a registration date that was the same as the date being used when mass registering, the student would receive a 2nd registration record. Now, if the student is already registered with the same date as what is being used in the mass registration, a 2nd record is no longer created.

ATT105.FMX Period Attendance - Class Entry**SCR34753****CRM Case No. – 1-21321**

Previously, when an unregistered student was cross-enrolled to an 'alternate school', teachers were not able to take attendance on those students in the cross-enrolled school. Teachers are now able to take attendance on unregistered students who are cross-enrolled in an 'alternate school' type.

ATT106.FMX ATT Condensed Entry**SCR34185****CRM Case No. – 1-18972**

Now, when taking attendance using ATT106, the create_user and create_date are populated on the database.

ATT140.FMX Period Attendance - Team/Club Entry**SCR35162****CRM Case No. – 1-24332**

Now, all faculty members assigned to a team can properly take team attendance through ATT140 Period Att. Teams/groups in Teacher Assistant. Previously, only the first faculty member assigned to a team on SCH093 could do this.

ATT150.FMX Period Attendance - Student Absences**ATT120.FMX Period/Days Attendance Summaries****SCR34110**

Now, when accessing both a student's cross-enrolled and home school, upon entering the Period/Days Attendance Summaries screen (ATT120) and selecting the Periods radio button, the values that display will be based only on the absences from the current school selected. Previously, values included absences from other schools.

Upon entering the Student Absence screen (ATT150) and pressing the Period heading button, the records now sort in ascending order based on the Period field. If the Period button is pressed a second time, the records will be sorted in descending order based on the Period field.

ATT150.FMX Period Attendance - Student Absences**TAW150.FMX Student Absences****SCR33746 (YUM139)****CRM Case No. – 1-17492**

Upon deleting an absence in the Period Attendance-Student Absences the performance has been improved.

ATT185.FMX Period Attendance - Mass Sign In/Sign Out**STUABS****SCR34015 (BZ #3501)****CRM Case No. – 1-16953**

On the Absence Quickview screen, the Headers and the contents are now aligned properly.

ATT205.FMX Attendance Tumbles**SCR33823****CRM Case No. – 145-17789**

Previously, incorrect information was displayed if changing the day in ATT205. A pop up message informed the user that he or she was changing the tumble, even if the user's intention was to change the day. Also, the pop up message was grammatically incorrect.

The pop up message was changed to accommodate changes for either the tumble or day. Also, all grammatical errors have been resolved.

ATT205.FMX Attendance Tumbles
SRIL001P.FMX ISBE 87-03 Fall Housing Report
SRUT001P.FMX SRUT - Student Record Collection
ATT670R.REP Attendance Tumbles
ATT900R.REP Attendance Report DOE-AT (IN)
SCH521R.REP Locator List
SCH522R.REP Locator List - Multi-Line
SRIL442R.REP Yearly Attendance Cards (IL)
SCR34602

A fix was made to add school_year to school_attendance_cycle queries.

ATT405.FMX Attendance Scanner Interface
SCR33134 (40168)
CRM Case No. – 1-13931

Previously, there was an incorrect message when uploading attendance from the Attendance Scanner Interface: 'Please run the Scanning Errors report. X out of Y sheet(s) have been uploaded from the scanner!'. When the user checked the scanning error report, there were no errors, and the data for all 3 sheets did in fact get uploaded and recorded in the sec_attendances table. This incorrect message no longer displays.

ATT510P.FMX Print Enrollment Registers
SCR35007

- The 'Other Pupil Summary' report (ATT514R) is running for a specific Grade and All Grades without an Oracle error.
- Modification was made to the 'Enrollment Registers (ON)' (ATT510P) parameter form to generate ATT514R for a specific grade.

ATT533R.REP Part-Time Registers - Elem. by Homeroom (ON)
SCR34757

Part time registered students are now displaying the correct Grade grouping for students.

ATT606R.REP Consecutive Period Absences - Period Detailed
SCR34319

There is now a space between the element 'For Period:' and the value displayed next to it.

ATT901.FMX Generate Absence Intervention Letters
SCR33563 (BZ #3585)
CRM Case No. – 1-17054

The hot key has been replaced for "Create Letter File" from L to C. Previously, the Lock hot keys "Alt + L" generated the letters.

SCR33913
CRM Case No. – 1-17954

Now, Generate Letters runs with no errors regardless of the selected date range. Previously, when run for a particular date range. Ora-01400 error would occur.

CODESP.FMX Print System Codes
SCR33540 (BZ #3626)

The "Transportation Restraint Requirements" label is now fully visible.

CODESR_A.REP System Codes - Address Category

SCR33538 (BZ #3641)

CRM Case No. – 1-17057

Previously, the data present on the code table was not being displayed on the system codes report.

On the Valid Addresses System Codes report (Administration > System Codes > click Print icon > select Address category > mark Valid Addresses checkbox):

- The Street Name value is now fully visible.
- The Catchment value is no longer truncated.
- The County value is now fully visible.
- The Federal Property displays on the report.

CODESR_F.REP System Codes - FARMS Category

SCR34266

CRM Case No. – 1-19263

Now, when printing from CODESP under FARMS with 'Income Types' selected, 'temporary' is spelled correctly in the report.

DCPS01R.REP DC - Secondary Report Card

SCR33717 (CR 582)

CRM Case No. – 1-17558

Previously, Report Card comments did not print when the 1st comment was omitted. Example: If the 2nd and 3rd comments were entered but the 1st was skipped then no comment printed. If the 1st was present, then all comments would print.

Now, if a reporting comment is removed it does not print, however the other comments that are still selected will print.

DCPS454P.FMX District of Columbia Transcript

DCPS454R.REP District of Columbia Transcript

SCR32687 (556)

Now, the values in the 'Units in Prog/Sched' column of the DCPS Letter of Understanding are correct. The 'Unit in Prog/Sched' column shows the number of credits to be potentially earned by the student. In addition, current year courses that have a final mark are now displaying on the transcript.

SCR33221

If there are no courses with final marks for the current year and there are courses in progress, the school year and grade header now display.

DCPS454P.FMX District Of Columbia Transcript

CRM Case No. – 1-19740

SCR34531 (659)

Previously, the transcript DCPS454R was being generated as a blank report. The length of 2 columns on the dcps454_courses_temp table was increased to fix the issue.

DMOEXT.FMX Demographic Extract

SCR35082

When the School on the Basic tab is set to null and the Run Extract button is clicked, an oracle error is no longer generated.

SCR34725 (HT5556)

Previously, there were duplicated records in the dropdown of Test Name and Number.

The dropdown list 'Test Name and Number' is now associated to the School of Assessment. This logic is valid only if multi school extract is set to 'N' and the option Use Enterprise Standard Testing Advance (Enterprise tab - Company file) is set to 'YES'.

EMAIL01.FMX EMAIL

SCR32323 (BZ #2774)

CRM Case No. – 1-13709

1. Another view was added in the select_stu block block, to sort on homeroom.
2. Homeroom was added to email_student_subjects_temp, to sort on homeroom in pertains_to block.
3. Control items were added for semester and term.

EMIS191.FMX EMIS Extract - FY2004

SCR33879

CRM Case No. – 1-18127

State specific changes for Ohio EMIS FY2007 to the Student Demographic (GI) extract:

- GI015 (column 11) - Changed to "J" to indicate Format J.
- GI380 through to GI420 (columns 208-212) - Elements deleted; now reports Filler.
- GI460 and GI470 (column 216 and 217-224) - Elements deleted; now reports Filler.
- Added GI510 (column 233) - Preschool Poverty Level.

SCR34793 (168308)

- For June only, data element GK260 Diploma Date - If the student's Diploma Issued Date is not null and the Diploma Issued Date is less than or equal to the District Withdraw Date or District Withdraw Date is null, then the Diploma Issued Date will be reported. If not, then it will be zeros.
- The district where the student was awarded the diploma will report the diploma date.

SCR34844 (174146)

Previously, in the GK record for withdrawn students inflated attendance was reported. The logic to prevent inflated attendance now includes withdrawn students.

SCR34937 (168308)

The correct Diploma Date value is now referenced by Diploma Type.

SCR35029 (184059)

Logic was changed to compare the Reclassification Date to the School Start Date to decide whether the Reclassification Date is in the current year or not. Previously, students reclassified from LEP from last year were being extracted as LEP students for the current year.

SCR35044

- If a student is attending a JVS, eSIS was previously adding the home school attendance with JVS attendance. Now, eSIS does not add home school attendance with JVS attendance, but adds absences from JVS.
- The old logic that set GK110 to 178 days was removed.
- If a student has a withdraw date, the withdraw date is no longer included since it is not included in eSIS when calculating attendance.
- If the absence reason is null, it is now counted as an unexcused absence.

SCR34949

The GK110 Attendance Days field now calculates correctly.

SCR34898

For the GQ record, in the event the team_categories.external_code only is populated, the student's program information will be extracted.

SCR34872 (167405)

One record per student is now reported for the last test taken for the category prior to the extract end date.

For GT280, it will always report *****.

SCR34977

For June, the program now Finds the student's disability with the most recent End Date that falls within July 1 to June 30 of the reported fiscal year. If none are found with an End Date that falls within this date range, it reports a filler.

SCR34966 (166627)

Previously, in the Ohio EMIS State Reporting (EMIS191) Student Attendance extract, the GK320 (columns 89-94) - Majority of Attendance IRN was not reporting correctly for students admitted on 10/07/2005 (Majority of Attendance Start Date) and for students withdrawn from the school/district after 03/19/2006 (Majority of Attendance End Date). Now, the AA\$ATT\$DISTRICT_ENROLLMENT package has been modified so that the Building IRN reports correctly for both situations.

SCR35113 (195183)

This is a client specific change to the Ohio EMIS Student Attendance (GK) extract when reporting the diploma date for open enrollment students. The AAL_EMIS_ATT_DEMO has been modified so that now if a student has a district withdrawal with code '41', the student's diploma issued date (GK260) will not be reported.

SCR33910

The GN120 field is no longer reported in FY2007, and will report null.

SCR34038

The program now selects students who have written at least one KRA-L test as selected on EMIS Reporting Test Setup screen (EMIS195), on or after January 1st of the previous school year and before or on December 31st of the current school year.

EMIS195.FMX EMIS Reporting Testing Setup

SCR35105 (194354)

The PROC_BUILD_ACHIEVEMENT_TEST - Ungraded students (grade 'UG) was changed and now uses the State Equivalent grade level, 'SE grade level' field on EMIS Detail (STU186), to identify whether the student is in the correct grade for a standardized test.

Note: In order to report correctly the Grade level of the student, the time the test was taken must be displayed on STU057, 'SubTest Detail' tab as well. For example, an Un-graded (UG) student must have Grade = 07 on the Sub Test Detail tab for that specific standardized test.

SCR33985

CRM Case No. – 1-18340

The October Record for DQ will read information for DQ230,240 and 250 from SYS055 for the fiscal year 2007.

ESIS.FMX Role Menu Start

SCR34958

CRM Case No. – 99-11231

The Reports tab now only shows report groups for the selected role, where the user has permission to see at least one of the reports in the report group.

SCR35071

The Role Menu now opens without an Oracle error.

EXP010.FMX User Export

SCR33734

Previously, when attempting to use several new categories, the field widths were not populated to the Detail Report (EXP010) screen. Now, the missing Field Width for different categories is filled in.

FARM05.FMX FARMS Income Guidelines

SCR30576

The tab no longer skips over the Save button.

FARM20.FMX FARMS Application Detail

SCR34385

'School' and 'Age' now auto-populate.

FARM30.FMX FARMS Applications

SCR34384

- A tool tip was added to the Mail icon button.
- Tabbing was changed. It goes from left to right, from upper part to lower part. It works in a circle and goes through all blocks, fields and buttons.
- Missing hints were added and wrong hints were changed.
- A problem querying on the START_DATE field now works correctly.

FARM80.FMX FARMS Application Import

SCR35588

CRM Case No. – 1-27994

Previously, the Texas Farm80 Farm Application Import only created a record with 1 student but if there was more than 1 data record in the file the records were not being created correctly. The application numbers format was also incorrect. The Mismatched report FARMS117R did not report any mismatches even when there was data that was mismatched. These issues have been corrected.

GETPUPIL.FMX Select Pupil**SCR32362**

GETPUPIL now allows you to query the entire school or another student from that school after navigating in from STU156.FMX Nurse's Quick Entry.

GETPUPIL.FMX Select Pupil**SCR35089****CRM Case No. – 1-11473**

Now, on the FARMS Application Details screen, when pressing the Add button and querying for a student in the school from the Select Pupil screen, the student appears. Previously, a message would display saying "Query caused no records to be retrieved".

GLOBALS.FMX**SCR30011**

You can now access 'Standard Courses' when the school in question does not have a subtype selected.

IMM001R.REP Immunization Letters by School/Homeroom/Alpha***IMM002R.REP Immunization Letters by School/Overall Status/Apha*****IMM003R.REP Immunization Letters by School/Student Name*****IMM004R.REP Immunization Letters by School/Grade/Alpha*****IMM005R.REP Immunization Letters by Overall Status/Alpha****SCR33007**

All immunization letter reports (IMM001R - , IMM002R - , IMM003R-, IMM004R-, IMM005R-, IMM012R-) are now printing the correct language in the home field even when the language at home is NULL.

JAVA JSPELL**SCR35205****CRM Case No. – 1-23153**

The file system structure for jspell web application deployment:. See the document [Configuring_JSpell_with_eSIS_10g.doc](#).

Java TA**SCR35297**

New tables were added for JAVA EE Teacher Assistant.

LETTERS.REP Letters**SCR33018 (91818)**

The letter now accepts 29,723 characters. Previously, there was a limitation of approximately 5800 characters.

SCR35544

Now, when a classroom teacher prints out a letter from Teacher Assistant, the letter will not display as blank.

SCR35412**CRM Case No. – 1-26946**

Suspension letters are now printing . Previously, after completing the details of the suspension / incident, and attempting to print a suspension letter from STU710P the message "FRM-41214: Unable to run report" displayed.

MAS050.FMX Transfer Students from Holding District
SCR33532 (BZ #3485)
CRM Case No. – 1-17030

When entering the screen through "Navigate To", the "Invalid District!" prompt no longer contains typographical errors nor is it cut off.

MENUBLD.FMX Menu Builder
SCR33064

- After creation of a folder or sub-folder the newly added item is selected (highlighted).
- A check was added for the empty name when a new folder or sub-folder are created. Now, the system displays the message: 'Error: Folder name cannot be blank.'
- After doing a copy menu the newly copied menu is saved. A message no longer appears.

MPS001R.REP Report Card - Secondary (MPS)
SCR34947

Now,

- The credits earned and promotion status now displays correctly according to a student's actually earned credits.
- The 'Earned' column in MPS003R displays the total value of a student's actually earned credits in the high school not the courses potential credits value.
- The promotion comment displays accordingly depending on students cumulative credits earned on the MPS Report Card.

Previously, the MPS003R Promotional status report was not handling instances where current course selections and Credit history had the same amount of credits in each. Instead of joining them and adding together it appeared to be deciding that they were the same and dropped either the credit history credits or the current course credits. The Earned column would display the total value of course potential credits not the student's actually earned credit value. On the MPS Report Card (MPS001R), students had enough credits earned showing on the report, but they were listed as 'Student has been retained in current grade' resulting in students having a 'Retained' promotion status showing on the MPS003R Promotional status report.

MPS001R.REP Report Card - Secondary (MPS)
SCR35026
CRM Case No. – 1-22390

Previously, there was disparity between the MPS Report Card and Student Promotion Status regarding credits earned (mps003r) versus cumulative credits (mps001r) . Students had enough credits earned on the MPS Report Card but they were listed as "Student has been retained in current grade".

A new cursor C_REQ was added to determine the MIN CREDITS REQUIRED to move to the next grade. e.g. To move from grade 9 to grade 10, the student would need to have at least the number of credits specified in the MIN_CREDIT column of GRADE 10 in SYS260.

MSB451R.REP Transcript Labels

SCR34890 (801)

- The Attendance calculation has changed. Now, all types of attendance: Authorized, Excused and Unexcused are included as it was in version 7.0.
- The layout has changed to fit 21 courses on one label. The report can generate 3 labels for the same student - total of 63 courses.
- The sort order has changed to keep the printing order if there is more than one label for a student.
- An Attendance 'Present' field is now showing the whole number to one decimal place.
- Now, whichever GPA option and sort option are selected, labels will print out correctly.

SCR34764 (801)

Previously, on the transcript MSB451R, if students had more than 17 courses, the courses would not fit on the labels and would overflow onto a 2nd label with no names on them. The layout has been changed to print more courses than can fit on one label and keep the label size constant. If the number of courses per one student is more than 17, the second label will be printed for this student.

The report can now print three labels $3 \times 17 = 51$ courses for the same student. The summary is printed only on the last label. Previously, when the student data was split into more than one page, the marks were not calculated correctly. Now, the marks are calculated on the second/third label for the same students.

MTB050.FMX Course Section Detail

SCR34659

Previously, the room or the teacher would get scheduled if clicking on the Cancel button (after getting the error saying "Target number of seats allocated would be exceeded) when scheduling a course section through the More button.

MTB060.FMX Update Combined Courses

SCR34877 (YUM_148)

All child courses are now scheduled properly. Previously, after scheduling a Parent course-section some of the child course-sections S, T, D, and P would not appear in the Course Section Detail screen. Also some of the child courses-sections would have duplicate periods scheduled.

MTB200.FMX Timetable Simulation

MTB300P.FMX Master Timetable Builder Audit

MTB300R.REP Master Timetable Builder Audit

SCR34225 (SPS099)

- The report version now displays.
- The column heading has changed from Last Simulation Run to Last Time Final Simulation Run.
- The 'Last time Final Simulation run' date is filled in Master Timetable Builder Audit report once the Final Simulation Complete checkbox is checked in MTB200.

MTB201R.REP Simulation Exception Report - Condensed

SCR34741 (HEAT # 5059)

Previously, when selecting the Condensed Report option in the MTB200, the Simulation Exception report MTB201R printed with only one student per page. Now, the Simulation Exception Report prints with about 6 students per page if the Condensed Report option is selected in MTB200.

MTB540R.REP Timetable Detail**SCR34690**

MTB540R now reflects accurate S-T-D-P information of term course sections by comparing to MTB050.

NCT454R.REP North Carolina Standardized Student Transcript**SCR34843 (CR4504)**

The performance was improved.

ON101R.REP Provincial Report Card**SCR35000**

As a result of the expansion of eligible courses outlined in Policy/Program Memorandum No. 139, changes were made to the "Completion of Requirements for Graduation" page of the Ontario Provincial Report Card (ONT101R), Grades 9-12.

SCR35413**CRM Case No. – 1-26954**

A change was made for calculating the Pupil hour sessions and pupil hours per session. Previously, it was not referencing terms in the calculation.

ON102R.REP On Prov Report Card - semestered 102**ON104R.REP On Prov Report Card - non semestered****SCR34713**

As a result of the expansion of eligible courses outlined in Policy/Program Memorandum No. 139, changes were made to the "Completion of Requirements for Graduation" page of the Ontario Secondary Report Card, Grades 9-12.

MRON ONSIS**SCR35088**

A change was made for combined classes to look at the archive table and get the timetable id for class code when using the Pending Area extract to determine a student's class.

ONSIS**SCR35328**

A change was made for the class segment to create the classes after PAE has been imported.

SCR35471**CRM Case No. – 1-27507**

The value of the mobility type (admission code) in the Pending Area Extracts was changed from the actual numeric code to a value of 'IA' for internal admission. This change in the OnSIS web application logic resulted in errors in eSIS. The import of Pending Area Extracts and the generation of XML was changed to accommodate this rule change. The value of 'IA' is imported and then used in the subsequent XML file.

SCR #35476 - When the student's Country of Birth matches the country selected on the parameter form for Canada, the Country of birth element of the student school enrollment segment is null.

ONT470R.REP Ontario Status Sheets**SCR34119**

You are now able to run the Ontario Status Sheet for schools with more than four scheduled semesters using the HOT PRINT button. An ORACLE error is not generated.

ORDER.PLL**SCR32191**

School Users can no longer see students from other schools/districts in the Select Pupil Screen from Home Room Assignment screen.

P.A.**SCR34587**

- Now, when the company file option Max # of Marks is set to 3, the Reporting Term drop down on the View Assignments page in Parent Assistant has the exam reporting period option. When the exam reporting period is selected in the reporting term field, only assessments in that reporting period display. When the final reporting period is selected, the assessments associated only to the final reporting period display.
- When the marks are not posted for the final reporting period and the final reporting period has been selected on the View Assignment screen in PA, the current average for the final reporting period now matches the value in the TA gradebook. The alpha mark displays beside that value.

SCR35802

The current field on the Current Progress screen in Parent Assistant now follows the rules below:

- If the course does not have a prep, then a dash will appear ('-')
- If the course has a prep but no assessments have been given, then a dash will appear.
- If the course has a prep and at least 1 marked assessment, then the mark will appear.

SCR35757

Now, if two students' parents have the same last name but the case of their names are different (example Smith and smith), when mass create student users on the Parent Assistant Mass Create users screen is run, oracle error messages will display. In addition, if a student has a 10-digit phone number, the mass create parent users process no longer generates an oracle error.

programAssignmentsDetail.jsp**CRM Case No. – 1-17808****SCR34059 (132549)**

The teacher's SSN/SIN and State Id no longer display on the Program Details screen in Parent/Student Assistant.

basicDemographics.jsp**viewableStudents.jspf****verifyPassword.jsp****starter.jsp****Student.jsp****CRM Case No. – 1-29551****SCR35743**

Previously, on the Demographics screen in Parent Assistant, a user was able to access other student's information by changing the student number in the url. Now, if a user types a student number into the url that the current user does not have access to, then the fields on the screen will become blank. If the user enters in an invalid student number, the login screen displays.

SchoolMessages.jsp**CRM Case No. – 1-26143****SCR35330**

Now, if a school message's Start and End dates are the current date, the message displays on the School Messages screen in Parent Assistant. Previously, it did not.

testCourseDetails.jsp**CRM Case No. – 1-15810****SCR33137**

Now, if a student has failed a course and received 0 credits for that course, in Parent Assistant on the Credits Earned to Date screen, the Credits Earned field will display 0 not the potential credit amount for that course. The Credits Earned field will correctly display the actual amount of credits earned as seen on the Credit Detail screen in eSIS.

EmergUpdate.jsp**CRM Case No. – 1-18956****SCR34211 (L1131)**

Now, browsers besides Internet Explorer can be used to successfully update information for an emergency contact or add a new emergency contact.

PI050.FMX Parent Assistant - Demographic Update**SCR33249**

Now, when a parent assistant user creates a note on Change Emergency Contact screen in PA, if an eSIS user accepts the change, the note will now display both on the Emergency Contact screen and the Parent Information screen in eSIS. Previously, the note would only display on the Emergency Contact screen. In addition, for an emergency contact whose address has a # in it, when no changes are made on the Change Emergency Contact screen and it is saved, there will not be a record on the Parent Assistant Emergency Contacts Change Requests screen in eSIS.

QUEMGR.FMX Queue Manager

SCR33870

CRM Case No. – 1-17931

Previously, when running reports in the background in the 10g version, there was no way to access reports sent to the Queue Manager. This issue was caused by Oracle using double quotes for 'userid' and 'p_user_name' to save the data on table rw_server_job_queue, but eSIS Queue Manager Module only uses login userid matching the data in rw_server_job_queue table.

Queue Manager Module was modified to process the double quoted 'userid' or 'p_user_name' to compare it with the userid in the user login session, so the report job record can be shown on the screen for regular eSIS user.

SCR35283

An Oracle error 'FRM-40735:WHEN-BUTTON-PRESSED trigger raised unhandled exception ORA:04062' is no longer generated when deleting a record on the Queue Manager screen.

SCR35287

CRM Case No. – 1-24188

Previously, when generating the report in clustered report servers under Oracle 9i AS Release 1, users were able to retrieve a report from Report Queue Manager screen, regardless of which report server within the report cluster environment, the report was generated.

However, since under Oracle AS 10g Release 2, the report cluster feature had been deprecated and unsupported by Oracle. A bug had also been found that, if generating a report in a clustered report server environment, users sometimes would not be able to retrieve the report correctly. In addition, once opening the screen, a message always displayed on the bottom left hand corner: "FRM-40112: Attempted go_item to non enabled item CG\$CTRL:RG_FILTER" for any users but not super users.

Now, users are able to retrieve a report within a report-clustered environment.

Note:

- Clients running eSIS 9.0 under Oracle 10g AS Release 2 SHOULD apply this patch release
- Clients running eSIS under Oracle 9i AS Release 1 SHOULD NOT apply this patch release

SCHOOLD.MMX School Details Menu

SCR34423 (34025)

CRM Case No. – 1-19161

Previously, if using the role menu when School Details -SYS040 was accessed, access to More info on the toolbar was unavailable. Now, when first entering the form, a message 'Query Cancelled' displays instructing you to either enter a query, execute a query or cancel the query mode. If you do not press Ctrl Q to cancel, and instead click OK, the School Details form opens access to 'More info' on the toolbar.

SCH014.FMX Teaching Teams

SCR34962

Previously, when double clicking on a blank row in the 'Teacher' column some of the courses listed were duplicated. The courses displayed are now correct for the selected school year (current or next).

SCR33950

The school year displayed at the top of the report is now correct.

SCH015.FMX Class Transfer**SCR34945 (179405)**

Performance has been improved.

SCR35515

To prevent database locking issues and reduce I/O, the simulator package will remove the delete and insert statements to the CLASS_UNAVAIL_REASONS table. This involved removing a call to the database procedure AA\$SIMULATOR2.RETURN_CLASS_UNAVAIL_REASONS from the AA\$SIMULATOR.SIMULATE procedure.

The CLASS_UNAVAIL_REASONS table was used to store the results of the latest simulation run for each student in the database. When a new simulation was run, the previous results were first deleted and on completion of the simulation, new records were inserted to the table; one record for each possible section per course per student. This occurred regardless of where a simulation was initiated from (STU541, SCH015 or MTB200). The size of the CLASS_UNAVAIL_REASONS table grew very quickly due to the amount of data being stored. The purpose for collecting this data was to allow users to see why classes were scheduled/not scheduled into specific sections of a course.

Note: The removal of this code from the simulator package prevents users from viewing the results of the latest simulation in the Section Availability screen off of STU541 ? Student Course Selections (Sec Avail button). It was determined that the immediate need of preventing database locking outweighed the use of the Section Availability screen as the data presented in this view is only relevant immediately following a simulation.

SCR35316**CRM Case No. – 1-26001**

Previously, when adding a course to a selected group of students but not simulating the newly added course, then loading a different group of students and attempting to add a course, an Oracle error occurred. When the choice to not simulate the first group of students was made (selected OK at the message prompt) and then loaded the next group of students, a rollback occurred on the previously inserted courses. Various fields needed to be reset when this occurred. The CURR_NEXT_COURSE was being left as Null instead of being reset to CURR. This was causing the oracle error ORA-01400: cannot insert NULL into

An Oracle error no longer occurs when attempting to add a course on SCH015 using this scenario.

SCR35085**CRM Case No. – 1-23472**

Unscheduled courses (in STU541) are no longer deleted when simulation is run through SCH015 (Class Transfer screen)

SCH017.FMX Parent Assistant - Counselor Interface

SCR34321

- You can now tab out of the 'School' section. Previously, when tabbing from the 'School' field to the 'Display Name' field to the 'Name' field and then tabbing again, an error message was received.
- The 'Counselor' field hint is now correct. Spelling of 'councillor' is now 'counselor', and there is an apostrophe in 'student's'.
- The 'Status' field hint is now correct. There is an apostrophe in 'student's' and there is not an 's' on 'years'. The hint is now 'Status of the student's next year timetable'.
- 'Evaluate' button hint is now correct. There is apostrophe in the word 'student's'.
- 'Evaluate' button pop-up message is now correct. There is an apostrophe in the word 'student's'.
- 'Message In' button hint is now correct. It was the same as the 'Message Out' hint.
- Tabbing now includes the 'Navigate', 'Save' or 'Exit' icons.

SCH018.FMX Parent Assistant - Advanced Messaging

SCR34307

- You can now tab out of the 'School' section. Previously, when tabbing from the 'School' field to the 'Display Name' field to the 'Name' field and then tabbing again, an error message was received.
- The 'Counselor' dropdown hint is now correct. Spelling of 'councillor' is 'counselor'.
- The 'Max Days For Unread Parent Messages' field hint is now correct. Instead of 'date' it reads 'number of days'.
- The 'Clear Students' button hint is now correct. The word 'the' no longer appears twice.

SCH023.FMX Parent Assistant - Course Message History

SCR34322

- Font of 'Message Date' heading is now the same size as that of 'Sender' and 'Message'.
- There are now hints for the 'Message Date', 'Sender' and 'Message' fields.
- The 'Navigate' and 'Exit' icons are now in the tabbing sequence.
- When double clicking on a message the message is no longer cut off.

SCH030.FMX Room Maintenance

SCR34523

An oracle error is no longer encountered when a room tied to a teacher is deleted.

SCH044.FMX Staff Details

SCR34721 (BZ #4055)

CRM Case No. – 1-20814

An error no longer occurs when assigning Teacher Access on Curriculum Subject Access.

SCR33454

CRM Case No. – 1-16776

When tabbing to Grade, Subject Areas, Teacher Access fields there are now hints displayed. When save is pressed, the standard message is now given : "FRM-40400: Transaction complete: 1 records applied and saved.

SCR34055

A curriculum model with only one level now shows in the Subject Area column in the Curriculum Subject Access button.

SCH050.FMX Course Maintenance

SCR34253 (601)

Previously, if a school tried to set a course type for some courses (not all) an error message 'Not a valid course type for this course code' was generated (as per standard courses SYS266). Schools can now set Course Type without any errors.

SCR34289

All incorrect hints and tabbing problems on SCH050 have been fixed.

CRM Case No. – 1-20287

SCR34608 (CR432)

Previously, users being able to update the School Course Maintenance Course Title by navigating to the Course Maintenance More screen and changing the title there. When they save, it has updated the course title. This happened when Enforce Standard Courses was turned on and Allow Course Desc. Override was set to No.

Now, when Enforce Standard Courses is turned on and Allow Course Desc. Override is set to No the School Course Maintenance Course Title cannot be updated by navigating to the Course Maintenance More screen and changing the title.

SCR35563

Previously if the Enforce Std Crs at School Level = Yes in the company file, when a course was brought down to school level, the Course Type field value was not copied down from District level even though there was a non-blank value filled in at the District level.

Now when 'Enforce Std Crs at School Level' is set to 'Yes', the course types defined at the district level (sys266) will enforce to the School level.

- If the Course Type field is left blank at the district level, all course types defined in sys267 (Course Types) will be available to choose at the school level.
- If there is only one value defined at the district level, when this course is copied down to the school level, that value is populated to the school level and grayed out.
- If there were multiple values defined at the district level, when this course is brought down to the school level, only defined values in sys266 (Standard Course Detail) plus a null value would be available to choose at the school level.

SCR34253 (601)

CRM Case No. – 1-19256

Now, schools are able to set course type without receiving the error 'Not a valid course type for this course code(as per standard courses(SYS266))!'.

SCR35381 (224306)

CRM Case No. – 1-26734

You are now able to add multiple fees to a course without receiving an oracle error.

SCH051.FMX School Course List Summary

SCR33159 (CR4085)

CRM Case No. – 1-15931

Now, when navigating to the Course List then querying and returning to the Start Screen, the field that indicates which school you are locked into is no longer blank.

SCH055.FMX Option Sheet Entry

SCR33520

Previously, when navigating to the Option Sheet Entry (School > Option Sheet > Option Sheet Entry), the tabbing sequence for the left navigation button was incorrect. There were no hints for School, the Course Short Name had an incorrect hint, and clicking on the Pupil Number twice generated a save message. Also, when deleting any record and then clicking on the left arrow or clicking on the Exit icon, an error occurred when trying to save changes (Pupil_Number cannot be null). Now, all cosmetic issues in the Option Sheet Entry have been corrected.

SCR33229 (SPS052)

Previously, student information except the student number would disappear when pressing F7 & F8 and OK to the message "Do you want to save the changes you have made?".

The system displays a message that query is not allowed when attempting to query on the options block. After clicking OK to the message: "This block may not be queried. Please use Student List button.", student information now stays on the screen. You may enter the pupil number and tab to the next field, and the name, grade, ethnicity, and gender display.

SCH059.FMX Current Year Course Selections by Grade

SCH006.FMX Current Year Enrollment by Admission Status

SCR34105 (BZ #2392)

- Previously, when accessing SCH059 (Enrollment Summary by Grade) as "Read Only", a system generated pop-up message displayed stating "Sorry, this is an entry screen!! You have only read-only access." you would have to click "OK" to continue. The pup-up message was inconsistent with other eSIS forms where users had read-only access. The system generated pop-up message has been removed and the screen is now consistent with other eSIS forms.
- Previously, a user with read only access would encounter an error message on SCH006 (Current Year Enrollment by Admission Status): "FRM-41056: Cannot find Block: invalid ID." To clear the message the user would have to click "OK" multiple times. An error is no longer encountered.

SCH059.FMX Current Year Course Selections by Grade

SCR34277

A spelling error in the hint for # of Students was corrected.

SCH060.FMX School Attendance Interventions Summary

SCR33565

CRM Case No. – 1-17063

Previously, when using the hot key 'Alt + L' in screen SCH060, the lock feature did not appear. Instead, the "All" Letter Type radio button was selected. The hot key 'Alt + L' is now exclusively for the lock feature.

SCH631.FMX Standardized Tests - Advanced
SCR35832

The following problems have been resolved:

1. Previously an oracle error was generated when saving newly added records on the Subtest Scale/Norm Translation popup screen under Standardized testing advanced setup. Now new records on Subtest Scale/Norm Translation popup screen can be saved without getting oracle errors.
2. Previously when adding a brand new standardized test, the sequence field was defaulted to 2 for the subtest even when no subtest existed. Now the sequence field defaults to 1 if no subtest exists.
3. Previously for an existing standardized test with type National, although Add and Del buttons for the Subtest were grayed out, the user could still add records by putting the cursor in the row under Sequence and also delete records by using Record Remove from the menu. Now for an existing standardized test with the type National, the user is prevented from such actions.

SCH076.FMX Generate Medians for a Reporting Period
SCR34978

CRM Case No. – 1-20008

Previously, if on Mark Scale Entry screen (SCH160) the Low and High value were not defined for related alpha value and students got marks as alpha values, the generated median would be 0 for an even number of students and K for odd number of students. When the Low and High value was defined for related alpha mark, and when the median was calculated to decimal place, an Oracle error would occur in 10g version.

Now, if on the Mark Scale Entry screen (SCH160) the Low and High value is not defined for related alpha value and students get marks as alpha values, the generated median will be 0 for even and odd number of students. In addition, the oracle error will no longer exist when the median is calculated to the decimal place (i.e. 68.5) and the returned value will be truncated (i.e. 68).

SCH092.FMX Team/Group Membership
SCR34774

An oracle error is no longer generated when adding a team member with a long name.

SCH092.FMX Team/Group Membership
SCH092R.REP Team/Group Membership
SCR27587

The information window now pops up for ineligible students.

SCH092.FMX Team/Group Membership
SCH097.FMX Student Athletic Eligibility Detail
SCR33464 (730)

Double clicking on a student name in SCH092 no longer yields a global variable (Global.Team_Id) error when advanced setup is not in use.

SCH092.FMX Team/Group Membership
SCR34774

An Oracle error message is no longer generated when adding a team member with a long name.

SCH093.FMX Team/Group Maintenance Detail

SCR33020 (SPS037)

Previously, if a team was added directly from SCH091 and saved, and SCH093 was accessed by clicking on the Detail button, the defaults for some fields on SCH093 were different than when adding a new team by clicking on the Add button on SCH091 or SCH093.

SCR33360

An error is no longer generated when changing back and forth from advanced to eSIS.

Now, when creating a new team either way, the following fields default as below for consistency:

- The checkboxes 'End Date and Exit Reason Req'd on Delete?', 'Include on Transcript?' and 'Earned an Award' default to unchecked.
- 'Authorized' defaults to 'Yes'.
- 'Fee Amount' defaults to 'Null' (Advanced set up not in use)

SCH093.FMX Team/Group Maintenance Detail

SCH097.FMX Student Athletic Eligibility Detail

SCR34778

- Earned and Potential credits are now being calculated when the Eligibility information is run for semester 1 of the next year.
- The LOV of Eligibility Report Date in SCH093 displays next year reporting correctly.
- Next Year' student team eligibility information is displayed on SCH097.
- Previously, when in Query mode of SCH097, it is no longer creating row level exclusive lock on the student_athl_eligible table.

SCH097.FMX Student Athletic Eligibility Detail

SCR33104

Query mode of SCH097, is no longer creating a row level exclusive lock on the student_athl_eligible table.

SCH099.FMX School Schedule

SCR32262

CRM Case No. – 116-13675

Changes have been made to the School Schedule to accommodate changing the start date of the school year. Modifications may be made to either extend or shorten the school year regardless of today's date. The school start date is associated with many other dates in eSIS. When a modification is made to the Semester 0 start date, a validation routine is called to evaluate selected data (as described in the attached document). A new School Schedule Change Impact screen displays a series of tables and record counts where records will be adjusted. This screen also displays the number of records that are considered Invalid where the application is unable to correct associated data. On authorization, the process continues and valid records are updated, reports are generated to display attendance records (if dropped) and log files are generated to store the invalid records that could not be updated during the process.

SCH100.FMX Reporting Periods

SCR33856

CRM Case No. – 1-11499

The Report Cycle Weights button now only appears if one of the Mark Calculations is 'Calculated'. Previously, the Report Cycle Weights button appeared when the Mark Calculation for any Reporting Period was not 'Calculated'.

SCH103.FMX GPA Type Criteria**SCR34803**

The following functionality was added for courses in credit details (current courses already had this formula applied). When extra grade points are added to the GPA "Post calculation" they are multiplied by the number of credits for the course before being added.

SCH104.FMX Review Calculated GPAs**SCR33904 (BZ #3843)****CRM Case No. – 1-18071**

Now, the hint for the button reads 'Student GPA Detail Report' and not 'GPA/Ranking report'.

SCH120.FMX Homeroom Maintenance List**SCR33857**

A save message is now displayed from the Additional Teachers popup screen after selecting the Save icon.

SCH120.FMX Homeroom Maintenance List**SRON120.FMX Client specific homeroom form****SCR34983****CRM Case No. – 1-22581**

Previously, the Ministry Homeroom Maintenance screen displayed the current year information when the Next Year radio button was selected on the Homeroom Maintenance screen. Now, next year information displays when the Next Year is selected from the Homeroom Maintenance screen.

SCH143.FMX Ontario Mark Entry Screen**SCR34180****CRM Case No. – 1-18928**

Now, if making changes to STU143 and exiting without saving, a message pops up asking if you would like to save changes. If you click yes, another message appears indicating that the changes have been saved. When returning to STU143, all changes have been saved.

SCH149.FMX Performance/Effort Mark Entry Screen**SCR35640****CRM Case No. – 1-28754**

You can now scroll the students records or save marks without generating an oracle error.

SCH186.FMX School TA Config Screen**SCR34469**

There are now hints on the 'School TA Configuration' form and the hint for the 'TA Class Transfer' button is more appropriate.

SCH200.FMX Display Class List**SCR35177 (5928)****CRM Case No. – 1-24399**

The program is now prompting with an error message when trying to query courses with a null school. The message says: 'Error: Query of Timetable must be in context of School Master'. Previously, School Users were able to see other school's details in the Class List screen (SCH200) after querying inside the course field.

SCH261.FMX Substitute Teacher Security Detail**SCR35526**

Now, when creating a new substitute teacher user on the Substitute Teacher Security Detail screen, the User name field and the Insert Password field will hold up to 30 characters rather than the previous 9. In addition, if the querying for an existing user that has a user name or password that is more than 9 characters, an oracle error messages no longer displays.

SCH420R.REP Course Description Verification
SCH425R.REP Course Description Verification - No Narrative
SCH420P.FMX Course Description Verification
SCR33499

If a pre-requisite only exists in Standard Course but not in Course Maintenance for the school for next year, it now prints out correctly in the Pre-requisite field of a course on the report, for the next school year.

SCH440P.FMX Enrollment Tally
SCH440R.REP Enrollment Tally
SCR34299

CRM Case No. – 1-18848

The report is now sorting correctly.

SCH440R.REP Enrollment Tally
SCR30514

Previously, a user on 10g runtimes was unable to run the SCH440R 'Enrollment Tally' report. When attempting to run the report, the following error message appeared: 'Unable to run report'. Once 'OK' was clicked, the message: 'There was an error running the report' displayed. TERMINATED_WITH_ERROR. For details please open the Queue Manager.'

This error was being caused by incompatible Client-server code. When run on Client-server, SCH440R had several icons associated with it that called other reports when pressed. These have now been removed and it has resolved the issue on 10g runtimes. No Client-server functionality has been lost as the additional detail reports are all still available from the Reports module through:

- SCH442P 'Enrollment Tally Details' for the reports:
- SCH442R Enrollment Tally Details - Age
- SCH446R - Enrollment Tally Details - Grades
- SCH449R Enrollment Tally Details - Program Type
- SCH451R Enrollment Tally Details - Program Type - No Programs Option.

Error messages are no longer generated and you are able to run SCH440R on 10g runtimes.

SCR34357
CRM Case No. – 1-19220

When entering an Effective date into the Enrollment Tally parameter form and selecting the 'Include Program Types' option, students who have a program with an end date before the effective date are no longer counted on the Enrollment by Program Type report.

In addition, when the 'Include Cross-Enrolled Students?' option and 'Include Program types' option are selected and an Effective date is entered on the parameter form, the cross-enrolled students who have programs with an end date before the Effective date will not be counted.

SCH490R.REP Enrolment Summary - Month-End
CRM Case No. – 1-16518
SCR33428 (1513)

Now, when running the report "Enrollment Summary - Month End Report", the last page of the report no longer displays asterisks along the side and the top headings for the columns.

SCH555R.REP Teacher/Room Timetable**SCR35249****CRM Case No. – 1-25352**

The Teacher Room Timetable report now prints accurately. Previously, it duplicated semester, term, time, periods headers.

SCR35270**CRM Case No. – 1-25352**

Response time to generate the Teacher/Room Timetable report has improved.

SCH641R.REP Enrollment Tally - Homeroom (BV)**SCR34280****CRM Case No. – 1-18844**

When printing the Homeroom List from the Enrollment Tally Parameter form (SCH440P), the effective date entered is now taken into consideration, so the Homeroom report generates based on the effective date, not the current date.

SCH670R.REP Teacher Master Schedule**SCR34515****CRM Case No. – 1-19787**

The report can now be run without encountering errors.

SCH680.FMX Mark Entry Screen**SCR33685**

The focus field no longer defaults back to the 1st subject but stays on the focus field selected. Additionally you may now single click a 'Comment' field to select that subject strand as the focus.

SCR34425**CRM Case No. – 147-19536**

Now, when entering SCH680, and double clicking on the Home Room field, or clicking on the Select Homeroom button, the pop-up shows the additional teacher names italicized.

SCH680.FMX Mark Entry Screen**SCH681.FMX Elementary Mark Entry by Class****SCR34324****CRM Case No. – 1-19443**

The word 'down' was removed from the message and the word 'effort' added so it now reads:

"This function will copy the mark '<mark selected>' to all the curriculum strands with the same performance/effort scale for the student and overwrite any existing marks. Continue?"

SCR35550

When editing the Subject/Strand comments by clicking the Clear button first and then the Transfer button on the pop-up canvas, the comments for a subject/strand and the comments on the pop-up canvas are now cleared.

SCH681.FMX Elementary Mark Entry by Class**SCR34405****CRM Case No. – 147-19534**

The 'Select Home Room' button has been added.

SCH684.FMX Ontario Curriculum Mark Entry**SCR35067****CRM Case No. – 1-23391**

The system refreshes previous period comments when navigating between students. Also, when there are no students in a class and you click the Student button, an oracle error is no longer generated.

SCH685.FMX Learning Skills**SCR35074****CRM Case No. – 1-23404**

When entering Learning Skill Scores for a student and then navigating to another student, entered scores are automatically saved for the previous student. Also, when entering scores for a student and then pressing the Exit button, the user will be prompted with a message to save the data.

SCR34794

The following changes were made for New Ontario Mark Entry:

- Scroll bar was added to the Student block.
- Special characters are now looking at the gender of the pupil to determine what to place in the comment.
- Comment is no longer being over-written with the Comment from other pupils.

SCR35066**CRM Case No. – 1-23395**

When manually entering comments for a student using \$#@ in the Term Comments pop-up screen, these replacement characters will be changed to the student's preferred name, his/her and he/she respectively upon saving.

SCH805R.REP Fees Collected**SCR33305****CRM Case No. – 1-15429**

The font of the Fees Collected report SCH805R was changed to Arial to match other eSIS reports and the italics was removed from the headings. Now, the Name field does not span more than 1 row - and only the portion of the name that can fit in the Name field displays. The data on the report is more legible as a result.

SCH830R.REP Quality Performance Accreditation (KS)**SCR34750**

- The Kansas QPA report is now calculating correctly for free and reduced students.
- The grade totals for violent acts now total correctly.

SCR34787

The building totals were corrected.

SED180.FMX Letter Selection**SCR34258**

- Hints are now correct when placing the cursor on the fields Category Code and Program.
- The bottoms of certain letters are no longer getting cut off. For example, letter 'P' in 'Description', 'Q' in 'Category Code' and 'Log', etc.

SED900.FMX Special Education Lite
SCR35171

1. Within SPED Lite, the fields Outcome Options and Non-Compliance Options have been changed from buttons to fields that display a list of values (LOV) which populate with the descriptions from the Outcome Options system code table that were entered for the selected important date.

Additionally, users are only able to select a single Outcome Option and a single Non-Compliance Option for each of the important dates being tracked for the new sped record.

2. Now, the Outcome Options and Non-Compliance options are required if a date has been entered for the selected Important Date - AND - the Outcome or Non-Compliance checkbox is selected on the Important Dates System code table for the selected Important Date.

Previously, these options were not mandatory.

3. You will no longer see the Staff Assignment fields continue to display even though these fields are not part of the selected tab.

SEW315.FMX SEW - Configuration Options Details
SCR35486

In the Ontario SPED module, an authorized user is now able to 'Create a Copy' of a Configuration from SEW - Configuration Options screen (SEW314), into SEW-Configuration Option Details (SEW315) successfully in both 10G and 9i environments.

SEW506.FMX Special Education Letters
SCR30027

A 'Category' drop-down was added, to list students who do not have an Accepted or Date Refused on SEWCP09, Notifications/Verifications screen.

SEW506.FMX Special Education Letters
SEW712P.FMX Parent Notification Letter
SCR35115 (633)

CRM Case No. – 1-23862

Special Education users no longer receive an error message when clicking the print button in the SEW Print Letters screen (SEW506).

Previously, the error message: 'FRM-41311: Invalid argument or argument ordering for CALL-FORM' appeared.

SEW616.FMX Assessment Report Type Codes
SCR35534

SEW - Assessment Report Type Codes form have been added as a system code table for the Ontario SPED module.

SEW717P.FMX Prior Notice Special Education Action
SCR33384

CRM Case No. – 1-16331

The title shown on SEW717P is now correct. It reads "Prior Notice of Special Education Action" as it is now pulls from the Navigation Maintenance screen (SYS005).

SEWAC10.FMX ACSPED2
SCR34483
CRM Case No. – 105-19939

A script
34483.alter_sew_ac_iep.ddl.sql

was written to modify the constraints

- fk_sew_ac_iep_parent1
- and
- fk_sew_ac_iep_parent2.

The parent_id in the IEP module is set to null when deleting the parent from eSIS. The script has to be run to set parent_ids to null when a parent is deleted from the parent's table, rather than not being able to delete a parent because it exists in the SPED module.

SEWBV500R.REP IEP Report
SCR35485
CRM Case No. – 1-27565

The psychologist's name in the middle of page 1, is no longer being cut off.

SCR35567
CRM Case No. – 1-28189

The word 'Objectives' is now spelled correctly in the 'Annual Measurable Goals and Progress Monitoring/Objectives/Benchmarks' section of the Blue Valley IEP Report.

SEWID33.FMX IEP Age Group Codes
SCR35236
CRM Case No. – 1-22112

The following form and associated script are needed to prevent oracle errors on the Sped Advanced module:
35236.create_sew_id_age_groups.tab.sql

SEWOH30R.REP Manifestation Determination Review
SCR35727

The line "The behavior is not a manifestation of the student's disability, if the IEP indicated No on item c or d of 1 above." of the second item of "Determination of the Relationship of the Behavior of Concern to the Student's Disability" section of the report MANIFESTATION DETERMINATION REVIEW(SEWOH30R) has now been removed.

SEWOH60.FMX PR-06 Evaluation Team Report Part B
SCR35725

An: Authorized user is now able to save and finalize the PR06 - Evaluation Team Report (SEWOH60) without receiving an Oracle error message.

SEWOH60R.REP PR-06 ETR
SCR34731 (169062)
CRM Case No. – 1-21235

Titles on page 2 are no longer being cut off. The title line was expanded so the member's title is not truncated. Previously, when staff member roles were chosen on part B of SEWOH60 and the report (SEWOH60R) was printed, the roles/titles on page 2 of the report were being cut off.

SCR34553 (158429)
CRM Case No. – 1-20153

When generating the preview of the PR06 ETR report the age reflected on the report is now calculated based on the system date.

SCR35725

An: Authorized user is now able to save and finalize the PR06 - Evaluation Team Report (SEWOH60) without receiving an Oracle error message.

SEWOH63.FMX PR-06 Evaluation Team Report Part A
SEWOH60R.REP PR-06 ETR
SCR32979

- The Evaluation Team Report A (SEWOH60R.REP) has been modified so that the gaps between the header and the text are the same for every page, specifically for the section 'Evaluation Team Report Part C'.
- On PR-06 Evaluation Team Report Part A (SEWOH63.FMX) you can now enter and save successfully more than 4000 characters of text in the 'Summary of Assessments' text box.

SEWOH70.FMX PR-07 Individualized Education Program (part 1)
SCR32957

CRM Case No. – 1-15307

An error is no longer generated when trying to enter a duplicate objective. Since the objective already exists with this goal, there is no need to have 2 records, (or a warning that the objective is a duplicate).

Note: The objectives must be unique (case sensitive) before the objective can be entered into the bank. If entering a duplicate objective and then banking the duplicate objective, the system accepts input and skips banking the duplicate objective.

SEWOH70.FMX PR-07 Individualized Education Program (part 1)
CRM Case No. – 1-15307
SCR35417

An Authorized user is now able to add a duplicate banked goal in PR07 Needs/Goals/Services tab without getting any oracle error message.

SEWOH70R.REP PR-07 Individualized Education Program (IEP)
SCR32960

CRM Case No. – 105-15272

- The 'See Goal' field is now printing from the services page. 'See Goal' was added to the Identify Services section.
- Size restrictions are no longer truncating District of Residence and District of Service. District of Service was moved below district of Residence and each field was expanded.

SEWOH70R.REP PR-07 Individualized Education Program (IEP)
SCR35726

The dates in the Initiation Date and Expected Duration of the report INDIVIDUALIZED EDUCATION PROGRAM (IEP) (SEWOH70R) are no longer displayed as asterisks.

**SEWOH71.FMX PR-07 Individualized Education Program Summary
SCR34837**

A trigger was created on the table called 'SEW_OH_IEP_NEEDS' to log deletions in the 'audit_table_log' audit table so that this can be queried from the database if a 'Need' or 'Needs' from a Finalized IEP or non-Finalized IEP gets deleted from the database. This log serves as a 'Trace File' to be able to determine what really caused the deletion of a 'Need'.

**SEWOH73.FMX PR-07 Individualized Education Program (part 4)
SCR32961**

CRM Case No. – 1-13270

Now, all field labels on SEWOH74 are aligned.

**SEWOH70R.REP PR-07 Individualized Education Program (IEP)
SEWOH73.FMX PR-07 Individualized Education Program (part 3)
SCR34448 (CAUSD 153485)**

From the screen SEWOH73 'PR-07 Individualized Education Program (part 3)', the needs/goals/objectives selected in the tabs 'Age 16 (Employment/Post Secondary)', 'Age 16 (Post School /Adult Living)', 'Age 16 (Community Participation)' are now displayed correctly in the Individualized Education Program(IEP) report SEWOH70R.

**SEWOH77.FMX EMIS Summary Screens
SCR33517**

CRM Case No. – 1-13197

The misspelled word on the Psych Info Screen 'Pysch Record No' now correctly reads 'Psych Record No'.

SCR33460 (114506)

- The 'Psych. Information' screen (SEWOH77) now has a 'Finalize' button to click on to finalize a Psych record.
- As well, you can now 'Add' a Psych record and save it successfully.

SEWON55R.REP Change of Exceptionality Report

SCR35493

The following changes were made:

- A spelling error in the pop-up message for the Confirmation screen was corrected.
- Services Plan Report(SEWON13R) issues were corrected.
- Action Items Details Report (SEWON17R) issues were corrected.
- Contact Log Detail Report (SEWON19R) issues were corrected.
- Emergency Contact List (SEWON49R) issues were corrected.
- Provincial or District wide Assessment Accommodations (SEWON56R) issues were corrected.
- Equipment List Report (SEWON08R) issues were corrected.

SEWON12.FMX Ontario SPED - Alternative Progress Reports

SCR35575

The following changes were made for Ontario SPED:

- The forms SPED - Get Area (GETAREA) and SPED - Assign Case Manager (SEW008) can now be navigated to successfully.
- Authorized user is now able to add and save an IEP or Service Plan successfully.
- Authorized user is now able to add and finalize a Consultation/Assessment.
- Authorized user is now able to add and save a Notification.
- Alternative Progress Reports (SEWON12) now shows all the Reporting Periods for the school selected.

SCR35291

The following issues have been resolved in the Ontario SPED module:

- The Special Education Start screen now only has one Main Menu.
- The Participants tab of Ontario Special Education - Meeting Minutes (SEW303) now has a scroll bar on the right side.
- An IPRC was created with a type associated with Additional Forms. The 'Additional Forms' tab of Ontario Special Education - IPRC Determination (SEWON02) now displays the Additional Forms required for the IPRC type selected.
- SEW - Exceptionality Codes (SEW608) now has a column checkbox that is used as an indicator to flag exceptionality as 'Multiple Exceptionality'.
- If the 'Other' checkbox is not checked, you can now select the 'meets' radio button successfully in the 'Decisions' tab of IPRC Determination Details (SEWON02).

- Whether 'Additional Forms' is selected from the tree or from the tab of IPRC Determination Details (SEWON02), the document type and document number is now being displayed.
- The tree no longer shows 'Additional Form' in the IPRC Determination Details (SEWON02) if the IPRC does not require one.
- SEWON16R - (Action Items List) is now displaying the results from SEW312.
- SEWON54R - (Due IEP Reviews) The report title has been corrected to 'Due IEP Reviews'.
- SEWON56R – The Report name was changed to 'Provincial/District wide Assessment Accommodations'.
- SEWON58R – The Report title has been fixed to 'Students Using Assistive Technology'.
- SEWON44R – The Report title has been fixed to 'Accommodations Report by Course'.
- SEW336 - Spell check now works in SEW336 in the following tabs, 'Options', 'Enclosures' and 'Basic Info' tabs.
- SEW315 SEW - Configuration Options Details has been fixed so that now an authorized user can Create a Copy of a Form Configuration successfully.

SEWOR65.FMX IEP Section 4 (OR)

SEWOR66.FMX Oregon IEP - SECC Supplementary Data

SCR34112

- The 'Federal Placement Code' field of the 'SECC Supplemental Data' screen SEWOR66 is now populated only when an entry is made in the 'Placement Option(s) Considered' field of the 'Placement Options' screen SEWOR65. If an entry is made in the 'If other, specify' field of the 'Placement Options' screen SEWOR65, then the 'Federal Placement Code' field of the 'SECC Supplemental Data' screen SEWOR66 stays as blank.
- You will no longer be prompted to save the 'SECC Supplemental Data' screen SEWOR66 if you have not made any changes. The information saved in the 'Placement Options' screen SEWOR65 is automatically saved to the 'SECC Supplemental Data' screen SEWOR66.

SCR34130 (599)

In the 'Placement Team' screen of IEP Section 4 (OR) SEWOR65, the selected or highlighted member (Name or Type) gets deleted upon clicking on the 'Del' button.

SEWSTART.FMX Special Education Start Screen

SCR35305

The Special Education Start Screen now only shows one Main Menu, which changes depending on the set-up of the Special Education Configuration.

SLC001P.FMX Salt Lake City Midterm/Report Card

SCR34836

Previously, SLC001P/R was not consistently printing Absences and Tardy's. This has been corrected by moving the attendance calculation out of the MARKS loop and also adding absences and lates to the update statements in the BOULD_COURSE_SELECTIONS procedure.

SLC001P/R now prints Attendance correctly and only has null values if there are no records or if there are multiple reporting periods attached to the date selected. The absence information displayed is the total for the latest reporting period only.

SRAZ
SCR34298

CRM Case No. – 1-19483

As of Fiscal Year 2007 Primary Nighttime Residence will be collected and included in the Needs Transaction (Tr.011). Primary Nighttime Residence is captured in a new field added on the end of the Needs Transaction. A Primary Nighttime Residence code is reported when a Homeless need is designated. The Need Exit Date is reported as needed. This is Arizona State specific transaction.

SRAZ001.FMX State Reporting Module - SAIS Reporting (AZ)

SCR35380 (AZ083106_024)

CRM Case No. – 1-26716

In the procedure for Early Childhood Program Participation (Tr.023) and Early Childhood Preschool Assessments (Tr.024) the cursor was modified to exclude the records if the Create Date in the log table is greater than the 'TO' date on the parameter form.

SCR34954 (AZ06152006_017)

CRM Case No. – 1-22063

A call for Attendance transaction (Tr.017) when running all transaction(after initial student 001 transaction created) was added.

SCR35372 (AZ06152006_017)

CRM Case No. – 1-22063

An Attendance transaction now checks if the attendance program is active on or before the parameter form End Date. An Attendance transaction is created for first day of school, when using the First day of school as the From and To date on the parameter form.

SCR35340

CRM Case No. – 1-26414

ORACLE pop-up information window no longer displays when navigating to SRAZ001.

SRAZ001.FMX State Reporting Module - SAIS Reporting (AZ)

SRAZ002.FMX Transaction Display

SRAZ005.FMX View Log (AZ)

SRAZ003P.FMX SAIS Transactions Display (AZ)

SRAZ003R.REP SAIS Transactions Report (AZ)

SRAZYET.FMX SRAZ Year End Transition

SCR35138

Main forms for Arizona State Reporting module were modified.

- SRAZ001: Added code to run and create text file elements for Early Childhood Program Participation (Tr.023) and Early Childhood Preschool Assessments (Tr.024). New fields were added for Need (Tr.011) and SPED Service Participation (Tr.014) transactions.
- SRAZ002: Added new layout and supported code for new transactions and new columns for need and SPED transactions.
- SRAZ005: Modified form to add columns for new transactions.
- SRAZ003P: Added check boxes and parameters for new transactions.
- SRAZ003R: Added layouts for new transactions and new columns for need and SPED transactions.
- SRAZYET: Added columns for new transactions.

**SRCO207P.FMX Colorado: Student End of Year CBLA Input
SCR35101**

- You will be able to open the HELP-> ABOUT menu to verify the version.
- The form is displaying the students from the list sent by client for 2005-2006 year.

**SRCO240P.FMX Colorado EOY State Report Files
SRCO241P.FMX Colorado EOY Record Review
SRCO241R Colorado EOY Report - Detail
SRCO242R Colorado EOY Report - Summary
SRCO250P.FMX Colorado End of Year State Report
SCR33239**

CRM Case No. – 1-21705

The End of Year report is used for Colorado EOY 2005-06 submission. Changes for 2005-2006 submission were made according to the State requirements.

**SRFLCS1.FMX Florida State Specific Course Selections Info.
SRFLFTE.FMX Florida Utility Screen
SRFLOSIR.FMX SRFL - Other School of Instruction Report
SCR34812**

CRM Case No. – 1-21523

A new field, Other School of Instruction was added to the SRFLCS1 screen. If this field is populated, it overrides the value of the School of Instruction from the Course Selections screen. A report was provided to identify these students.

**SRFLDFFC.FMX SRFL District Format File Creation
SRFLFDPE.FMX SRFL Format Data Display / Edit
SCR35317**

CRM Case No. – 1-26142

For survey 5, student OEY status, Postsecondary Education Plans, PEP is now padded with a 0 and the column is 2 characters. One extra space (for filler) after Postsecondary Education Plans was added.

**SRFLDFFC.FMX SRFL District Format File Creation
SCR35361**

CRM Case No. – 1-25986

The form now synchronizes after every 5000 records when creating text files, to remain in contact with the server when performing longer runs.

**SRFL454R.REP Florida- Transcript
SCR34791**

- Courses are no longer duplicating on the transcript.
- All Courses are now showing up on the transcript.
- Cumm. GPA block is now showing up for withdrawn students.

SRFLSC.FMX SRFL School Control**SCR34953**

An oracle error is no longer appearing when a survey 4 run is attempted. This was corrected by adding the enrollment table to the demographic package so that cross enrolled students get included for survey 4.

SCR35363**CRM Case No. – 1-26619**

To select the incidents, the discipline referral format now looks at the incidents with an action type that has an External code.

SCR35416

On Survey 5, Discipline referral for withdrawn students, the program generates incident records based on the school incident list and not on enrollments. This ensures that all incidents are reported.

SCR35212

The LEP format button was added to the survey 5 list on the school control. The LEP format was added to the file creation drop down list. The Demographic record is generated only for the last registration record.

SRFLFAST.FMX SRFL - FASTER Interface**SCR35076****CRM Case No. – 1-23382**

The program was previously looking at only one record in the registration archive (for previous years). Now, it looks at all records in the registration archive, so all previous year records get reported.

SCR35117**CRM Case No. – 1-23934**

Previously, a ministry number was not getting included with the student's T3 record. The value of SSN was not being assigned for previous years. An insert statement for the SSN field was updated and now it populates in the T3 record.

SRIA002P.FMX SRIA - Project EASIER**SCR34759**

The Legal District of Residence is now reporting the original value from the Student Demo Change Log instead of a new value. If the Legal District of Residence is changed, the latest information from the Student Demo Change Log is reported.

SCR34840 (804)

The validation message for D0570 element was changed. Previously, the Exception Message was generated if the value of 'Postgraduate Intended Educational/Occupational Plans' element was not 1 or 2. Now, if this element is populated and the value of the element is not one of the valid state values (1 through 9), an exception message is generated. (Easier - Demographic: sequence 22).

SRIL001P.FMX ISBE 87-03 Fall Housing Report

SCR35364

CRM Case No. – 1-26202

The totals for 'Kindergarten' students are displayed on the correct row on the report. Previously, the totals for 'Kindergarten' were displaying on the row without a Grade description.

The row, without Grade description, displays and indicates that there are students in the grades without an external code.

SRIL002R.REP End of Year Report ISBE 87-04

SCR35123

CRM Case No. – 1-23082

The report layout has been changed to allow Ethnic Column Heading to wrap to multiple lines.

SRIL300P.FMX SRIL-ISBE

SCR34984

Debugging messages were removed from the code, and do not display on the exception report.

SCR35040

Some children's information was being continuously generated with errors reported by the state. As a result, logic for the Manual Update option was modified as follows:

- The manual update can be turned on/off if a record status is G, R.
- If a record status is 'R' and it is flagged as manual update, when the Resubmit button is pressed the record status is changed to 'C' (complete) and the record is not included in the file.
- If a record status is 'G' and a Manual update is 'Y' then when the Submit button is pressed the record status is changed to 'C' (complete) and the record is not included in the file.
- If the record status is 'G' and the Manual update is "Y" when the Generate button is pressed the record remains with the manual flag turned ON if there was no change to the record. If there was a change then the record is updated with new values and the Manual update flag is turned off.

SCR34780

CRM Case No. – 1-21470

The previous SCR34780.delete_old_translation.sql which deletes no longer required TRANSLATION TYPE records has been replaced with a new one, and the screen maintains the Insert and Update.

- SRKS001P - The field was renamed (Enrollment Identifier), and the way it stores the value was changed. SRKS001P and SRKS002P have shared stored procedures that are called when calculating the record values, the original shared code was getting confused as to which program assignments to use when calculation Enrol School D2 and AYP School D18.
- SRKS002P – The Enrollment Identifier was added and the AYP Identifier was moved.

SRKS002P.FMX Kansas KIDS Collection
SCR34810

For 'All Active students in the District' extract, Membership Days and Attendance Days had not been populated for 'Collections 6' if the Exit/Withdraw Date was Null.

The way the Attendance Date variables were being set, and how it was querying from the SRKS KIDS Collection parameter form was modified. Now, Membership Days and Attendance Days populates for a student when Exit/Withdraw Date is entered or not entered.

SCR34831

In Submission 6, the order was changed. ASC not DESC is now processing the Admission/Withdraw records first.

SCR34717

The 'Minutes Effective Date' title was changed to 'Status Effective Date' on the parameter form, EXPORT tab.

Logic was changed to report all the Student Flags (D27-Minutes Enrolled, D28-Concurrent High School Enrollment, D33 - Eligibility for National School Lunch Program D34-IEP, D35-Qualified for 504, D36-Migratory Status, D37-Homelessness Status, D38-ESOL/Bilingual Program Entry Date, D41-ESOL/Bilingual Program Participation, D42-ESOL/Bilingual Program Ending Date, D43-ESOL/Bilingual Student contact Minutes, D44-Technical Education Student, D45-Technical Education Contact Minutes, D46-title I Participation, and D47-Title I Supplemental Educational Services). Now, flags are reported based on the 'Status Effective Date', not the 'To Date' field..

SCR34835

The code was modified to use 'Attendance From Date' and 'Attendance To Date' on the parameter form to calculate Attendance when calculating membership information.

SCR34839

The procedure to get membership days to work properly for scenarios when a student is withdrawn, and then admitted to school again, was modified.

SCR34825

- The way the ADM/WDR periods were included (excluded ADM/WDR periods that had WDR dates on the effective from date Collection 6 only) was modified.
- While running Collection 6, the Exit Date is being set when Programs are exited.

SCR34856

CRM Case No. – 107-21716

The School Start date problem when a student had Admission/Withdraw for AYP School was corrected.

SRKS002.FMX Kansas KIDS Student Generated Information
SRKS003.FMX Transportaion Miles, Contact Minutes Import
SRKS002P.FMX Kansas KIDS Collection
SYS257.FMX Testing Methods
SCR34892

This is the initial release of phase 1 and 2 of the KIDS update for 2006.

SRKS003R.REP Kids Collection Seminar Minutes
SRKS002P.FMX Kansas KIDS Collection
SRKS003.FMX Transportaion Miles, Contact Minutes Import
SCR35460

CRM Case No. – 1-27422

Problems with the import were resolved.

In D26, students with no homeroom or minutes will have contact minutes reported from the parameter form for enrollment minutes programs.

SRKS003R.REP Kids Collection Seminar Minutes
SRKS002P.FMX Kansas KIDS Collection
SCR35414

CRM Case No. – 1-27017

For Blue Valley the current grade level now shows and the grade translations pull over.

Previously, in D13 all students were getting a zero Refused to designate, when most students were designated. Elementary student minutes are now reported.

- D42 is blank when the student is not ESOL. (Specs change)
- D45 isblank when the student is not an Tech Ed student.
- The seminar minutes report no longer displays an error.

SRKSMIS1.FMX v4.0.05 KS MIS File Transfer
SCR34799

CRM Case No. – 1-21603

The program now reports incidents that occurred during all IEPs.

SCR34816

CRM Case No. – 1-21647

Only incidents that occur during the last IEP that is IDEA are now reported.

SCR34880

CRM Case No. – 1-21929

Previously, the incident length was correctly rounding the threshold for Educational Services Delivered Under Expulsion but was incorrectly reporting an N instead of Y.

**SRONSIS
SCR34537**

The rules for populating the previous Country/Province/Language files for an admission have been changed.

Based on the submission date range, all demo change log records where the Effective Date of the change is equal to or greater than the Admission Date and less than or equal to the End Date of the submission are included.

**SCR35080
CRM Case No. – 1-23522**

A change was made to updating of the Promotion Flag in the Student School Enrollment Segment for Elementary schools. Previously, the flag was set to False when the Do Transition List showed a blank grade for the next year. This change now updates the Promotion Flag with True when the Next Grade is blank. A warning message is created for the student to show that an assumption was made.

SCR34737

- Some students may have an FTE greater than 1.0. OnSIS will not accept a value greater than 1.0. Therefore, if the FTE is greater than 1.0, the element defaults to the value of 1.0. The FTE element is in the Student School Enrollment segment.
- The Invalid Status exception message for Literacy test, for Grade 9 students, is not generated, because Grade 9 students do not have this test.

**SRONSISP.FMX OnSIS Parameters Form
SCR34829**

CRM Case No. – 1-21667

The logic for Combined courses has been changed. Combined courses are classes where the semester, term, day, period and teacher are the same AND the first five characters of the course code differ.

SCR35109

A change was made to check the registration records when multiple admission and withdraws occurred.

**SCR35096
CRM Case No. – 1-22187**

A change was made for a withdrawn student to determine if the student has earned a credit within the extraction period at the selected school. If the credit earned is not at the selected school the student will not be included in the extract.

SRONSIS1.FMX OnSIS - User Interface

SCR34792

CRM Case No. – 1-20691

Locally developed courses which are defined on the Translation screen now have only the first 5 characters used to compare with the school and student course to determine if they are locally developed courses. This affects both the Class segment and the student Class Enrollment segment.

SCR35346

CRM Case No. – 1-26415

A change was made to correct the admission date for the reported student.

SCR35342

CRM Case No. – 1-26353

When the class code data is used from the pending area, it now inserts 12 characters instead of 2. This was only for elementary schools.

SCR35336

CRM Case No. – 1-26351

The import package was modified to remove extra spaces in Pending area extract files.

SRONSIS3.FMX Pending Area Extract

SCR35276

CRM Case No. – 1-25578

A change was made when reading the ministry number from the text, to trim blanks to correct the issue with the value error (only 10G issue)

SCR29594

The Pending Area Extract button is now enabled.

The OnSis Web Application button was changed to access the new URL for the OnSis Web application.

The Pending Area Extract screen is used to select files related to the Pending Area downloaded from the Ministry. After each file has been selected, the import button can be selected to import the files into the Pending Area tables. These records are used in a verification to determine if field information is new (Add), changed (Update) or not available (Delete) action for the next submission.

Note: The Pending Area import function CANNOT be run until after the October signoff with the ministry.

SRONSIS4.FMX Submission History (OnSIS)

SCR35243

CRM Case No. – 1-25492

A technical issue for 10G was resolved.

SCR35081

New logic supplied by OnSIS reports the combined class value, a unique sequence number in eSIS, as the student's class rather than the actual class.

SRONSIS6.FMX View and Print Student Information Prior to XML

SRON006R.REP OnSIS Student Information

SCR34005

When selecting one of the various student segments, the information about the student from the Student segment is printed along with the other segment selected.

SRONSIS6.FMX View and Print Student Information Prior to XML

SCR35436

CRM Case No. – 1-26951, 97-27430

Additional logic was added when using the student 's Previous Province field and the demographic log. The original value is now used instead of the new value when the new value is null..

The issue with the Oracle error reported by TLDSB ORA-01400: cannot insert NULL into (ADMASST.

ONSIS_STUDENT_SCHOOL_ENROLLMENT.Z_BATCH_FILE_ID has been corrected. This error was caused by the Pending Area.

SCR35064

CRM Case No. – 1-22337

A missing tag was added for the LANGUAGE_TYPE_PREVIOUS_SCHOOL in XML file.

SCR35180

CRM Case No. – 1-24569

Previously, an error displayed when an extract was run for a session that had information in the PAE area. A change was made to reduce the number of characters inserted from the PAE area.

SCR35143

CRM Case No. – 1-22337

A correction was made to the segment name for the Previous Language Type within the STUDENT SCHOOL ENROLLMENT segment. The tag name was changed from LANGUAGE_TYPE_PREVIOUS_SCHOOL to LANGUAGE_TYPE_PREVIOUS_SCH to prevent an error being generated.

SRONSIS7.FMX Create XML (OnSIS)

SCR34999

CRM Case No. – 1-22540

Encoding on the XML file was modified from UTF-8 to ISO-8859-1.

SRONSIS

SCR35003

CRM Case No. – 1-22364

Now, if the student has multiple Admission records for one school, the code is selecting the right admission date for the student.

SROR

SCR35304

CRM Case No. – 113-26062

Prior to this modification, the 'SCHOOL' from program assignment was being used to populate field 12, Attending School Institution ID. Now, all collections will use the 'EXTERNAL CODE' for the Program Type.

SROR103P.FMX OPTE Oregon State Report

SCR35207

CRM Case No. – 1-24641

Previously, the State Reporting Student Verification queried only students who were active in schools that a user had access to.

Now, State Reporting Student Verification will query ANY student, admitted at ANY time into the requesting user's district, as per the school(s) selected on the parameter form. The student may be withdrawn and admitted to another school within or outside the requesting user's district.

SROR104P.FMX Early Leavers Report(SROR)
SROR550R.REP Early Leavers
SCR35234

CRM Case No. – 1-24262

- Three selection options were added to the parameter form. Checked: Early Leavers/Rescinds, Unchecked Early Leavers Only, and Both.
- The header that says "Only Reported Early Leavers" was removed.
- The Request for Records Info field was added.
- The font size of the report was increased.

SCR35355

CRM Case No. – 1-26613

The Request for records info will now report if

- the box is checked,
and
- the information that is stored in the Request for Records Info field on STU166.

SCR35186

CRM Case No. – 1-24261

- The parameter form uses the SRGETPUPIL screen when using verification.
- The default sort order for the Early Leavers list and Rescind List was changed from Pupil Number to Last Name, First Name.
- The print Icon was added to the Rescind Canvas that calls SROR104P.FMX Early Leavers Report(SROR).
- Early Leavers now uses Admission Withdraw history to determine Early Leaver Status instead of always using students Current status on the students table. This fixes issues with students that appear on the list that should not be there in previous years.
- The screen no longer closes when you cancel a query.

SROR105P.FMX LEP Program (SROR)

SCR34760

CRM Case No. – 1-21530

The sort order of the models now functions correctly when creating the file. Now, the second model will not be prevented from being reported due to the model number.

SROR105P.FMX LEP Program (SROR)

SCR34785

CRM Case No. – 1-21403

The missing models are now reported. The 52 code now reacts as 51. Duplication of programs in program model 3 that have already been reported in model one or two does not occur.

SCR34786

CRM Case No. – 1-21314

LEP Students that are withdrawn, and have been entered into another school in the current year will be included in the LEP report and file.

SCR34924

CRM Case No. – 1-22050

A bug was introduced that caused the record to overflow the maximum length. The file records will now have a length of 1558.

SCR34788

CRM Case No. – 1-21530

The missing models will now be reported.

SCR34826

CRM Case No. – 1-21698

The issue with multiple student records being created for each school they attended in the same district has been resolved.

SROR125P.FMX Student Count by Grade/Ethnicity (OR)

SROR900.FMX Secure Student ID Export/Import (OR)

SCR35165

CRM Case No. – 1-24575

A trigger failure no longer occurs after an SECC package is altered.

SROR250P.FMX High School Completers Report (OR)

SCR34259

CRM Case No. – 1-19361

The student will only be reported for the school where they received a diploma. The program flags will report correctly based on effective date.

SCR35226

CRM Case No. – 1-25281

Previously, State Reporting Student Verification queried only students that were active in schools that a user had access to.

Now, Verification queries ANY student, admitted at ANY time into the requesting user's district, as per the school(s) selected on the parameter form. The student may be withdrawn and admitted to another school within or outside the requesting user's district.

SROR550.FMX Early Leavers/Rescind Utility

SCR34708

CRM Case No. – 1-20920

If a student has multiple withdrawals or No show records on the same day, it no longer causes a duplicate in the Early Leaver list.

SCR35091

CRM Case No. – 1-22741

Students who have been identified as Potential Leavers and are not flagged as being reported are removed from the list if they are Re-admitted or No-showed and have "Request for Records" turned on STU166. Students that are still Potential Leavers and are No Showed back into their previous grade will then have their Actual Grade updated.

SCR34798

CRM Case No. – 1-20920

A new rule was added to the logic to prevent duplicates. If two no-shows are on the same date it picks up the latest one by either creation date, or higher ID number.

SROR730P.FMX ADM Collection v2

SCR33801

- The default on the reports tab was changed from a Text File to a Detail Report.
- The default of the ADM Report was changed to All Students.

SCR35142

CRM Case No. – 1-23278

Instructional hours are no longer affected by student demographic changes (grade, LDR etc.).

SCR35108

CRM Case No. – 1-22729

Instructional hours are now being reported correctly.

Prior to this modification, students that had no home school (not admitted and not registered) during the period entered on the form but did have instructional hours entered, were not being reported correctly. Now, the Start/End dates of the program are reported unless another date overrides the instructional hours dates. Duplicate instructional hour records are no longer being generated.

SROR905.FMX Assessment Collection SMF Export (OR)

SCR33152

CRM Case No. – 1-15728

Districts now have the ability to create the Assessment Collection for a limited group of students.

SROR909.FMX SECC

SEWOR66.FMX Oregon IEP - SECC Supplementary Data

SCR34556

CRM Case No. – 1-20264

The student selection criteria was changed to not look at school.bsicd.

SRUT001P.FMX SRUT - Student Record Collection

SCR34790

CRM Case No. – 1-21370

Previously, when a student was assigned the same home room for different time ranges, it was creating an AM record for each date range for the same ministry assigned course (grouping of home rooms on the translation screen). A new business rule was created to total all AM records for the same Ministry course and combine their totals into an AM record for the Ministry assigned course.

SCR34827

CRM Case No. – 1-21670

Previously:

- Teacher1(AC06) SSN number was extracted from the teacher assigned as the teacher in the Timetable area of Course Section Maintenance.
- Teacher2 (AC11) SSN number was extracted from the teacher assigned as teacher1 in the Schedule area of Course Section Maintenance.
- Teacher3(AC12) SSN number was extracted from the teacher assigned as teacher2 in the Schedule area of course section maintenance.

Now:

- Teacher1(AC06) SSN number is extracted from the teacher assigned as teacher1 in the Schedule area of Course Section Maintenance.
- Teacher2(AC11) SSN number is extracted from the teacher assigned as teacher2 in the Schedule area of Course Section Maintenance.
- Teacher3(AC12) is always blank.

SCR34975

CRM Case No. – 1-22501

Previously, the membership days was being calculated above the 180 membership threshold, for cross enrolled students. If a student has a cross enrolled course, Membership is now calculated using the cross enrolled school course schedule.

SCR34811

CRM Case No. – 1-21369

When a student is admitted and withdrawn and then re-admitted and assigned the same homeroom as was previously, the membership now includes all homeroom assignments within the school year.

SCR34864

Previously, on the Course Membership record the Aggregate Membership, Days Attended and Actual Membership were being populated with 0 for Cross Enrolled students. This has been resolved by extracting the membership data from the cross enrolled school.

SCR34942

CRM Case No. – 1-22329

- A correction was made when reporting students who had a grade change within the school year. This problem was affecting the course entry date and aggregate membership.
- A correction was made to the course Start date which was reporting the Start date with a date that was before the student's start date.
- A correction was made to the calculation of aggregate membership and attendance membership which was reporting more than 180 days.

SCR35051**CRM Case No. – 1-23150**

Previously, when a student was admitted and registered for a date in the future and then placed in a homeroom, registration records indicating the homeroom changes (from null to a homeroom) were not generated because the student was not registered. The trigger on the registrations table is based on whether the student is currently registered. In this case, the registration is in the future and the registration records are not written.

Logic for determining the Start Date of the homeform assignment was changed as follows :

- Gets the most current I-ADM record from registrations having the students homeform code.
- Checks create_date, mod_date of homeform_enrollment against the registration found in first step and reports the maximum date of it.

SCR34960**CRM Case No. – 1-22433**

The issue with aggregate membership showing 0 for High School students has been corrected. The procedure was modified, and will use pupil_number instead of school to calculate membership.

SCR34971**CRM Case No. – 1-22429**

Previously, when a student was added to a class after the class had ended, the class was being reported. This scenario occurred when schools added the incorrect class to the student.

The following business rule was added. When a student is added to a class after the class has ended, the class will not be reported.

SCR34972**CRM Case No. – 1-22434**

Previously, a course that was added on the student's withdraw date, was reported. The following business rule was added. Do not report any classes that start on or after the student's withdrawal date.

SCR34973**CRM Case No. – 1-22500**

Previously, the Semester Length field on the AC record was being populated with a blank for the courses which were running in semester 3. Now, all semester 3 courses populate this field with a 2.

SCR34976**CRM Case No. – 1-22411**

A duplication of course codes was created because the Ministry Course Code was being used instead of the Course Maintenance Code. Changes were made to use the Course Maintenance Course Code when populating the Course & Section field on the AC record.

SRVA001P.FMX Student Record Collection**CRM Case No. – 1-20685****SCR34722**

The grade drop down lists have been restored. The Distance Learning Flag reports the correct value. The First Time in Ninth Grade field reports in the correct position.

SCR34819**CRM Case No. – 1-21671**

- The program now uses the SRVVIEW, SR Verification/Validation screen in place of SCH021 Verification Form to view edit/violation messages. Also, it uses the SRVVIEWR report in place of SCH021R to print edit/violations.
- The program now uses the SRGETPPL screen in place of GETPUPIL to select student for verification.
- Field 51, 55, 56 , 69-71 are now part of the EOY submission.

CRM Case No. – 1-17905**SCR35061**

Performance for the procedure has been increased by changing the run criteria. Now, the procedure will run by school, not by student. Also, the procedure will run for all selected schools, not run for one school at a time. The Collection was run for the District (using in-house client's database), and produced a file that contained 34557 records, in approximately 3.5 hrs.

SRVA002P.FMX Special Ed Child Count**SCR35090****CRM Case No. – 1-23373**

The program now looks at the SEW_EXIT table to get the SPED withdraw date and Code. When generating the output, if the Placement code, columns 131-134, value is NULL, it is replaced with 4 blank spaces.

SCR35120**CRM Case No. – 1-23373**

Previously, both the December 1 Report and SPED Exit Report were not extracting student records correctly if the student's SPED IEP Signed Date was prior to the start date on the SRVA002P parameter form. Now, the SRVA002P parameter form and the AAL_SRVA_UTILITIES package have been modified to correctly extract student records for each report and to correctly extract the student's Disability Code in the Exit Report.

SRVA004P.FMX CTECH Reporting Completer Demographics Report**CRM Case No. – 1-21930****SCR34881**

The student selection logic for a potential run will now only include students with a CTE program.

SCR35016**CRM Case No. – 1-22011**

A bug was found in the plan filtering, that identified students incorrectly. The program now filters the completed plans correctly.

SRVA CTECH**SCR35046**

Previously, if a student took the same course twice, it was counted twice. Logic for students who take a course multiple times was changed so that the earned value is counted only one time.

SRWA534P.FMX Washington State 1051E Transitional Bilingual
SRWA534R.REP Washington State 1051E Transitional Bilingual
SCR35057

CRM Case No. – 1-20351

This is an update for the Washington State 1051 E Bilingual Report.

SRWI190P.FMX SRWI - School Nursing Activities
SRWI190R.REP SRWI School Nursing Activities
SCR35126

A new report (SRWI- School Nursing Activities) was added to show students who have been ill/injured, have emergency care plan or screened for vision, in order to compare the student count with the flat file. Also the logic was updated to remove duplicates from the Emergency Care count.

SRWI190P.FMX SRWI - School Nursing Activities
SCR35095

The School Nursing Activities (SRWI190P) form creates the file and populates the 'Number of Ill/Injured student seen' using the number of visits, not students.

SRWI504P.FMX PI-1804 Summer School Report
SRWI504R.REP PI-1804 Summer School Report
SRWI506R.REP PI-1804 Summer School Audit Report
SRWI509R.REP PI-1805 Summer School Audit Report ITP
CRM Case No. – 1-21286
SCR35059

- When you select multiple schools, "Multiple" now shows in the field for school selection.
- The description of programs selected shows detail description of the program.
- There is no longer an oracle error "ORA-00001 unique constraint violated".

STU031.FMX Student No Show Log
SCR34341

STU031 now has hints.

STU036.FMX Period Attendance Maintenance
SCR34013 (BZ #3514)
CRM Case No. – 1-16952

From STU036 (Period Attendance Maintenance), you are able to access the "Navigate To" screen without receiving the message "FRM 40010: Cannot read form SYS010".

STU056R.REP Student Standardized Test Summary
SCR33334 (CR4045)
CRM Case No. – 1-15143

Student header information and Column Titles are no longer missing on the report.

STU055P.FMX Student Standardized Test Summary
SCR33798

The Standard Test Summary report now runs when a numeric "Score Range" is specified.

STU057.FMX Student Standardized Testing
CRM Case No. – 1-25225
SCR35300

SCR35720

Now, when adding a standardized testing to a student, the sub test related to the test is populated on the screen and the user no longer gets an oracle error. Also those grey fields under the Tab Sub Test Detail are changed to white.

STU070.FMX View/Refresh Students at Risk Status STU071.FMX Mass Assign Children at Risk

SCR35418

CRM Case No. – 1/24329

Performance has been improved on Children at Risk screens mainly for Mass Assess Gains/Progress process while running for the entire district.

STU100.FMX Admit Student

SCR35023 (6634)

Previously, when using the 'Admit Screen' (STU100) you could click on the 'Info' icon that is in any row and every student in the eSIS database would be displayed. Also by entering any one piece of criteria and clicking on the 'Info' button you could pull up every student in the database that matched that criteria. This was a security breach and it has now been fixed.

SCR34254 (HT#00004001)

When 'Use Restrictive Query' is set to 'Yes' on the Admissions tab of SYS001, students with a birth date prior to 1950 are now being displayed.

STU102.FMX Pre-School Experience

SCR34336

CRM Case No. – 1-19456

Selecting the Pre-School Experience Type and clicking on Save will no longer trigger an Oracle error.

STU105.FMX Basic Student Demographics

SCR35124

Previously, when a school user was trying to admit a student who previously attended another school and the Basic Student Demographics Screen came up, the School Name would still display the previously attended School Name not the current locked school and the user was unable to back out of the record without forcing the session closed.

Now, a school user who has access to STU100 and STU105 is able to admit a former student with the current locked school displaying on the School Name field on STU105.

SCR33943

CRM Case No. – 1-17401

Performance has been increased.

STU107.FMX Student Fees/Assistance
SCR34743

1. You can now add fees for the next year through Student Fees/Assistance. Previously, clicking Add would result in an error 'FRM-41051: You cannot create records here'.

2. You can now add fees for the current year through Student Fees/Assistance. Previously, clicking Add would result in an error 'FRM-41051: You cannot create records here'.

3. An error is no longer generated when trying to change the Fee Description field for an existing fee. A new message was added to notify that general accounting practices prevent the updating of a Fee Description. If selecting Display Error from the menu, you will see an error popup, but the "problem" described was being handled in the code associated with the "general accounting practices" message.

4. You are now able to remove a fee for the current and next year using Record > Remove.

SCR35198

Now, when clicking the previous year radio button on the Student Fees/Assistance screen, all of the previous years outstanding fees display.

STU109.FMX Student Siblings
SCR33241

Now, students with long names can be attached to other students as a sibling without an oracle error message displaying.

STU111.FMX Homeroom & Staff Assignments
SCR33496

The Homeroom and Staff Assignments screen now only display the current eligibilities from the most current IEP.

STU115.FMX Parent Information
SCR30839

You can now tab on STU115.

STU120.FMX Emergency Contacts
SCR30834

- The 'Save', 'Add', and 'Delete' buttons are no longer in a white text box.
- The tab now moves to the toolbar.

SCR20470

Now, the call sequence on the emergency screen is not affected when parent's information is modified.

STU125.FMX Medical/Health Information
SCR30848

You can now tab to the 'Enter AdHoc Fields' button on STU125.

STU140.FMX Immunization Compliance Detail
SCR35368 (E-mail)
CRM Case No. – 1-26653

Previously, when selecting a Series and Option, only vaccinations with dates displayed. Other vaccinations for the selected Series and Option that did not have vaccination dates would not display.

Now, all vaccinations for the selected series and option will display on the Immunization Compliance Detail screen (STU140).

STU149.FMX Select Courses for Individualized Course Plan
STU570.FMX Individualized Course Plan
SCR34399

While adding a course to the ICP via STU149, Save prompts only display when exiting the form, if changes have not already been saved.

STU152.FMX Nurse's Log Detail
SCR33930

CRM Case No. – 1-18117

When viewing the details of a student's visit on the "Nurse's Quick Entry" screen, the student's homeroom now appears.

STU160.FMX Credit Detail

STU164.FMX Student Credit/Credit Marks Detail
SCR35706

Now, if there are multiple values defined in the Course Type field for a course at the district level, when the course is added from the Credit Detail screen, only defined values in sys266 (Standard Course Detail) plus a null value are available to choose for Course Type field.

Now, when a school is selected from the drop-down list, the District/School field is populated with the School Long Name and the field is not grayed out to restrict modifications.

If the DEFAULT_PROVINCE on the COMPANY is ONTARIO, the Ministry Number field is now called 'Mident #' will appear on STU160 and STU164. If the DEFAULT_PROVINCE on the COMPANY is not ONTARIO, the 'Mident #' field is hidden on both forms.

STU161.FMX Interim Grades/Marks Credit Details
SCR35111 (HEAT # 6995)

Previously:

- when a course was being dropped

or

- during YET

and the course marks and comments were being written to the table

CREDITS_INTERIM_GRADES, if the school comments entered exceeded 500 characters, the error ORA-06502 PL/SQL numeric or value error character string buffer too small was occurring. This occurred because the column size in the table was less than 500 characters. The column has now been adjusted to accept 1500 characters.

STU165.FMX Equivalent Credits
SCR34398

Previously, after deleting a record in the Equivalent Credit Detail block on STU165 and clicking on the Save button, a 'No changes to save' message displayed even though the changes had been saved. Now, a standard Save message displays on the bottom left hand corner.

STU170.FMX Withdraw Student**SCR33720**

Now, after a student who has a cross-enrollment record is withdrawn, the Ohio specific check (this will only appear if the Company file, Default tab, Default State is set to Ohio) will not occur until after the Final check screen. This allows users to click on the School of Record Transfer checkbox on the Final check screen. If the School of Record Transfer is not selected, this Ohio specific verification of cross-enrollment records will be done, however if the School of Record Transfer is selected, the Ohio specific verification of cross-enrollment records is NOT done.

SCR35463

Previously, when filling in a date different from the student's current admit date on the No Show Transfer screen, upon selecting the transferred school and entering the Admission/Withdraw Maintenance screen, the Effective date for the 'no show' student would be the student's Admission Date from the school the student was no showed from.

Now, for the school the student was transferred to, the Effective Date on the Admission/Withdraw maintenance screen for the no showed student is the date that was entered on the No show transfer screen.

STU170R.REP Withdrawal/Transfer Record**SCR35200****CRM Case No. – 1-24898**

The function 'get_farm_status' was added to the package 'aa\$sis\$farms' and the report now prints successfully after upgrading to 9.0 with Oracle 10gR2..

STU175B.FMX Supervisory Student Notes**STU175C.FMX Personal Student Notes****STU176.FMX Note Detail****SCR29218****CRM Case No. – 1-15923**

Now, when a classroom teacher opens the Notes List STU175/ STU175B/ STU175C or Diploma Screen (STU552) from TA, a teacher can query and see only those students who are in the teacher's class/homeroom/team.

STU178.FMX Call to Office**SCR33518 (BZ #2966)****CRM Case No. – 1-16951**

When using the hot key 'Alt + D', a window now pops up where you can change the date.

STU181.FMX Student Attendance Intervention Correspondences**SCR33716 (BZ #3590)****CRM Case No. – 1-17060**

Now, "Alt + T" causes the 'Letters' radio button to be highlighted and the function of "Alt + L" is exclusively for locking. Previously, when trying to use the Lock function "Alt + L", the 'Letters' radio button was highlighted. If pressing "Alt + L" again, the Lock screen was generated.

STU182.FMX Home School Transfer**SCR33124****CRM Case No. – 1-15762**

Previously, an error was received when trying to complete a home school transfer for a cross enrolled student. A where_clause was added to only query home school records.

STU195.FMX Student Incident Details**SCR34943 (175845)****CRM Case No. – 1-21717**

An error is no longer generated when navigating to student incident details.

STU199.FMX Incident Victim Information**SCR34220 (SPS098)****CRM Case No. – 1-19118**

Error messages are no longer displayed when a read only user accesses the STU199 screen from either STU193 or STU201.

STU200.FMX Proficiency Extract (OH)**SCR35358 (220690)****CRM Case No. – 1-26444**

Previously, when generating Ohio Pre-Id files for all students in the ITC and sorted by school, the Ohio Proficiency Extract (STU200) was not sorting the records correctly. Now, the Proficiency Extract form has been modified and the records extracted are sorted by district first then by school in ascending order when ITC is selected.

SCR35273 (209257)**CRM Case No. – 1-25580**

Now, only grade 3 students appear when creating Pre-ID Labels with grade 3 selected on the STU200 form.

STU230.FMX Immunization Fast Entry**SCR34044****CRM Case No. – 1-18461**

Previously, checking the CIS form the unsigned checkbox would display a new pop-up window, and incorrectly make the overall status complete. Now, checking the CIS form unsigned checkbox makes the overall status insufficient.

CRM Case No. – 1-15928**SCR33214**

Display codes set up in SYS685 now populate on STU230.

STU237R.REP Query Student Medical Records Report**STU238R.REP Query Parents/Guardians Report****STU239R.REP Query Emergency Contacts Report****SCR34295**

Cosmetic changes were made.

STU270R.REP Office Index Card - Elementary**SCR34951****CRM Case No. – 1-22412**

Now, if a student's parent has a long address, it successfully prints on the Office Index card (STU270R) for that student. Previously, a blank page would display and in the queue manager there would be an oracle error message.

**STU272R.REP Monthly Withdrawn Students Office Index Card - Secondary (ON)
SCR33643**

The report now prints correctly without any errors for all withdrawn students regardless of the length of the health card numbers.

**STU273R.REP Monthly Withdrawn Students Office Index Card - Elementary (ON)
SCR34244 (BZ 4007)**

CRM Case No. – 1-18965

Previously, on STU273R the Parent, Contact and Transportation information only appeared on the first page of the report. The student's background information now prints on all pages.

**STU274R
SCR34023 (594)**

CRM Case No. – 1-18420

Previously, if a student had no parent information, the report STU274R would print with data misaligned and overlapping because it would move the information up on the page. The frame around Parent/Guardian and Emergency Contact Information areas was modified to preserve spacing in relation to the information printed below.

**STU300.FMX Nurses' Screenings
SCR33176**

CRM Case No. – 105-15967

Previously, when inputting a 'Follow Up date' that was greater than the 'Screening Date', an error message would appear : "Follow Up Date cannot be less than Screening Date". Also, when clicking on the Due Date field, the cursor does not display.

Now, all cosmetic issues have been resolved

**SCR33591 (YUM0208096_1)
CRM Case No. – 1-17013**

Previously, when querying for a Referral Due Date, no results are returned even though there are matching records. Referral Due Date records can now be queried from the form.

**STU310.FMX Student Screening Results
SCR34693 (BZ #4089)**

CRM Case No. – 1-20808

- Previously, if no information was entered in mandatory fields, oracle error messages would display. Now, a message displays stating the field cannot be blank.
- If trying to enter a question number when the Screening Type has not been selected, the cursor goes to the Screening Type field. If typing an invalid question number into the question number field, a message displays stating that the question number is invalid.
- If a Screening Type has already been added to a student and an additional question is added to the Screening Type on the Screening Question System Code screen, after querying for a student with the Screening Type, a user can type in the question number of the new question on STU310 (provided there is an empty row) and press Save. Upon pressing Save, the new question appears.

**STU440P.FMX Monthly Attendance Cards
STU440R.REP Monthly Attendance Card - Daily
SCR33983 (YUM121)
CRM Case No. – 1-18239**

Previously, Monthly Attendance Cards-STU440R printed incorrect absences. The Attendance Card is now printing correct absences (overlapping parameter dates are possible).

STU442P.FMX Yearly Attendance Card (ON)

SCR35025

CRM Case No. – 1-22740

The Yearly Attendance Card is now populating totals for schools.

STU442R.REP Yearly Attendance Card (ON)

SCR35250

CRM Case No. – 107-25633

The length of CF_OEN_MINISTRY_NUMBER1 parameter was modified and the report generates without an Oracle error.

STU455R.REP Potential Graduates (ON)

ON102R.REP On Prov Report Card - semestered 102

SCR35045

CRM Case No. – 1-23034

If a student has two Literacy Tests, each with two subtests, and the student has PASSED one subtest in each test, the total result of the Literacy Test will be PASS.

STU457.FMX Timetable Call Form

SCR35529

An error is no longer generated when opening the Student Timetable screen.

STU474R.REP Student Timetable (YECC)

SCR35125 (YUM072406_1)

CRM Case No. – 1-24099

The Previous Balance now prints properly in the Student Timetable report when the fee is longer than 5 characters

STU476R.REP Student Timetables

SCR33224

CRM Case No. – 1-16044

When fully populating the School Message text box in the STU476P, the report no longer overflows the comments section.

STU490P.FMX Student Index

SCR34373

CRM Case No. – 1-19225

The report now sorts students by home room, name correctly for schools with more than 2 semesters.

STU490R.REP Student Index

SCR32516 (69669)

CRM Case No. – 1-13997

Previously, when running the Student Index report, schools reporting home rooms by semester and terms displayed asterisks in the home room column on the Student ID report for those students whose home room is assigned by a 9-week term.

Now, asterisks appear on the report only for students with invalid homerooms.

STU518R.REP Student Lunch Periods

SCR34367

CRM Case No. – 1-19160

When using the 'Next Year' option on the parameter form the report again includes students who are not currently enrolled in the school (i.e. students rising from elementary to middle school).

STU541.FMX Student Course Selections

SCR35517

The SQL generated by the form was issuing bad SQL statements that were causing locks on the database, specifically:

```
SELECT xxx FROM COURSE_SELECTIONS WHERE ROWID=:1 FOR UPDATE OF ID
```

This statement can cause locks on the database because the select statements mark the table primary keys for UPDATE. The form no longer marks the primary key for update, but instead uses other columns that are not part of the database foreign key structures.

SCR31968

An error no longer displays when dropping and adding back the course. Previously, when dropping a course that had a Standardized Test attached to it and re-adding a similar course with the same test associated to it, the course would simulate but an oracle error was generated upon saving.

SCR33077

CRM Case No. – 1-15735

Now, after setting the 'Course Matching' to be 7 (instead of 3) in the Company File, the system generates a warning message that a student is missing a pre requisite (when simulating a course that has a pre requisite) when the student has not yet taken that prerequisite course.

SCR35281

CRM Case No. – 1-25993

STU541 has been modified so that the old SQL statement generated by the 'Drop 1' process (only when a final mark entry is required):

```
SELECT PUPIL_NUMBER,COUNSELORS_ALERT FROM STUDENTS WHERE ROWID=:1  
FOR UPDATE OF PUPIL_NUMBER
```

is no longer generated. It is replaced by the new SQL statement generated by the 'Drop 1' process on STU541 (only when a final mark entry is required):

```
SELECT COUNSELORS_ALERT FROM STUDENTS WHERE ROWID=:1 FOR UPDATE OF  
COUNSELORS_ALERT
```

STU544.FMX Student Course Selections - Detail

SCR21701

The School label no longer overlaps the Diploma Sub Type label.

SCR33861 (SPS083)

CRM Case No. – 1-17999

The yellow alert no longer appears if alerts have been set to 'No' in the Company File.

SCR35713

Now any defined values on the Course Type field at the district level will be enforced to the school and student level when 'Enforce Std Crs at Student Level' is set to yes.

STU552.FMX Student Diploma Screen

SCR35301

CRM Case No. – 1-17582

Previously, when opening the Diploma screen for students, the following error was displayed:
Error found in AA\$SHOW_DIPLOMA1 (ORA-06502: PL/SQL: numeric or value error).

After ignoring the error screens a Diploma screen would display, but was missing all course details. Now, all course details display.

SCR35296

CRM Case No. – 1-17105

Errors are no longer encountered when entering this screen from Role menu.

SCR34286 (SPS035)

CRM Case No. – 1-15542

Previously, the HS Credit on the Middle School Credit canvas was not protected against update when Enforce Standard Courses at Student Level was set to 'Yes' in Company file.

The logic behind Enforce Std. Crs at Student Level was extended to include this field when Enforce Std. Crs at Student Level = Yes, and users are not able to change the option 'HS Apply' in the Middle School Credits canvas.

NOTE: The HS Credit field is disabled when a record is displayed (a record will not display in this canvas if it is not HS Credit).

SCR33194

Previously, if the 'Elective' field was left blank in SYS050, the Compulsory Required in STU552 would display as '0'. Now, if the 'Elective' field is null in SYS050, the 'Compulsory Required' will be equal to the 'For Diploma Required', and the 'Optional Required' and 'Optional Earned' will display as '0'.

Note: If the 'Elective' field is not null in SYS050, the maximum optional earned will be capped to Optional Required plus Waived Credits if waived credits exist.

SCR35383

To resolve course-matching issues, the following changes have been made:

The label of the existing Company Option 'Course Matching' was changed to 'Min Std/Requisite Course Code Length.' All standard and requisite course codes must have a minimum length of 'Min Std/Requisite Course Code Length'. (Existing functionality)

The pre-requisites and anti-requisites** matching logic was changed so that it no longer uses the course matching option in the company file.

When matching pre-requisite or anti-requisite courses the system uses the length of the requisite course code to determine how many characters will be used to make the match.

Note There are two applications for anti-requisites ('Limit Anti-Requisites to Credits') in the company option:

- Type 1, where the student may not be scheduled into a course if the student has already taken the anti-requisite. (ie: Simulator)
- Type 2, where the user may be scheduled into the anti-requisite, but only one course/credit can be counted towards the student's diploma. (i.e.: Diploma)

Note: Standard course matching logic will remain the same.

When finding a matching standard course record the system starts with the full credit/course code (ABC001) and searches standard courses for a match. If no match is found then the last character is removed (ABC00) and another search is made.

The practice of removing a character from the course code and then re-searching is repeated until the length of the course code (ABC001) is reduced to the length of the course matching company option.

(35362) Previously, course selections were behaving differently from credit detail. If in high school, a course's grade level was 5 to 8 and 'HS Credit Apply' was unchecked, when such a course was aged to credits, Analyze Diploma would validate on course grade level and treat the course as a zero credit course (indicator = 6). However if the same course was added on the Student Course Selections screen but not dropped, Analyze Diploma would validate on student grade level not course grade level resulting in the course credit was counted toward diploma.

In order to implement the current diploma logic, changes have been made to the student course selections to match the logic existing in credit detail. When a course, its grade level is 5 to 8, is added to the Student Course Selections screen, STU555 will validate on course grade level to determine if it is a zero credit course with indicator 6 or counted toward diploma.

STU551.FMX Student Course Selections - View Schedule

STU457.FMX Timetable Call Form

SCR32670

CRM Case No. – 1-14250

Previously, when users ran STU551R using the Role menu, and have never run a demographic extract before would get a message saying "Please run the demographic extract from the report menu". Now, users can run STU551R without having run a demographic extract

STU552.FMX Student Diploma Screen

STU552R.REP Student Diploma Summary

STU553R.REP Student Diploma Detail

SCR34235 (SPS095)

CRM Case No. – 1-18801

The Waiver Line on both STU552 and STU552R will display if the company file setting 'Waive Diploma Categories' is set to 'Course.' Previously, Waivers only appeared if the 'Include zero credit courses' option was on. Course waivers appear even when this option is not selected

STU553.FMX Student Timetable Results (Conflict Detail)

SCR35376

- aa\$simulator.ps.sql - v1.23 - FOR 9.0 CLIENTS ONLY (is included in the 9.1 Release)
- aa\$simulator.pb.sql - v1.23 - FOR 9.0 CLIENTS ONLY (is included in the 9.1 Release)
- aa\$simulator.ps.sql v1.20.1.1 - FOR 809 CLIENTS ONLY
- aa\$simulator.pb.sql v1.20.1.1 - FOR 809 CLIENTS ONLY
- aa\$simulator.ps.sql v1.19.2 - FOR 806, 807, 808 CLIENTS ONLY
- aa\$simulator.pb.sql v1.19.2 - FOR 806, 807, 808 CLIENTS ONLY

To prevent database locking issues and reduce I/O, the simulator package removes the delete and insert statements to the CLASS_UNAVAIL_REASONS table. This involved removing a call to the database procedure AA\$SIMULATOR2.RETURN_CLASS_UNAVAIL_REASONS from the AA\$SIMULATOR.SIMULATE procedure.

The CLASS_UNAVAIL_REASONS table was used to store the results of the latest simulation run for each student in the database. When a new simulation was run, the previous results were first deleted and on completion of the simulation, new records were inserted to the table; one record for each possible section per course per student. This occurred regardless of where a simulation was initiated from (STU541, SCH015 or MTB200). The size of the CLASS_UNAVAIL_REASONS table grew very quickly due to the amount of data being stored. The purpose for collecting this

data was to allow users to see why classes were scheduled/not scheduled into specific sections of a course.

Note: The removal of this code from the simulator package prevents users from viewing the results of the latest simulation in the Section Availability screen off of STU541 and Student Course Selections (Sec Avail button). It was determined that the immediate need of preventing database locking outweighed the use of the Section Availability screen as the data presented in this view is only relevant immediately following a simulation.

STU553R.REP Student Diploma Detail

SCR35012 (SPS119)

CRM Case No. – 1-22605

'Waived' headings and total credit values now display appropriately on the report when 'Waived Diploma Categories' is set to 'Course' in Company file.

STU554.FMX Career Development Modeling

SCR34333

The Program is now exiting the form without asking to enter Override Details when choosing not to save the details.

STU555R.REP Analyze Diploma

SCR33898

CRM Case No. – 1-17968

- The subject area of the distribution report displays course flags correctly when sorting by subject category.
- When sorting by Completion date (STU553R) the last two fields on the report are no longer overlapping.

STU555.FMX Analyze Diploma

SCR34689

The equivalent credit records will be no longer be removed when evaluating the same diploma type.

STU574.FMX 4 Year Student Course Plan

SCR35148

CRM Case No. – 1-24270

Previously, after adding a course, you were able to remove the course short name and save the record.

Now, when adding a course using the Add button the program does not allow the record to be changed. The message 'Update not allowed' displays if trying to delete it. The only way to change the short name is if a course is being added manually and the record has not been saved.

SCR35153

CRM Case No. – 1-24269

If an existing course which is in the current year but not in next year on Course Maintenance, is added to STU574 from STU149 by using the Add button, upon saving, an error message no longer displays.

STU591.FMX Student Pre-Transition List**SCR35232**

Previously, the LOVs and validation queries for Next Grade and Next Homeroom fields were using next_school_school. The LOVs of these two fields were not correctly populated due to this. Now, the LOVs and validation queries for Next Grade and Next Homeroom fields are using next_school so that the LOVs of these two fields are populated correctly.

SCR35232

Now, the LOVs and validation queries for Next Grade and Next Homeroom fields are using next_school not next_school_school so that the LOVs of these two fields are populated correctly.

STU621.FMX Mass Entry of Program Assignments**SCR35132****CRM Case No. – 1-23942**

An error message is no longer returned upon entering Mass Entry of Program Assignments screen if the Current Year, Next Year and Previous Year radio buttons are selected.

SCR35210**CRM Case No. – 1-23942**

Search criteria in Mass Entry of Program Assignment now return students based on the Program Type/Previous Year selection.

STU645.FMX Student Test History **SCH640.FMX Standardized Test Questions****SCR34889**

When entering the Student Test History screen and Standardized Test Questions screen a user with read-only access no longer receives Oracle error messages.

STU675.FMX Mass Assign Homerooms by Grade**SCR34022**

When attempting to copy homeroom an Oracle error is no longer generated.

STU770R.REP Report Card - Elementary (ON)**STU771R.REP Elem. Report Card 2 (ON)****SCR35136****CRM Case No. – 111-24258**

On the Elementary Report Card (grade 7 and 8), Subject/Strand averages do not display for a student unless the student has a mark for the particular strand/subject.

STU770R.REP Report Card - Elementary (ON)**STU771R.REP Elem. Report Card 2 (ON)****STU772R.REP Ontario Elementary Report Card****STU773R.REP Catholic School Grades 1 to 6 RC****SCR34728****CRM Case No. – 1-20530**

All comment boxes now use the space allowed to its full potential as the word wrap function has been enhanced by adding a weighting component to each character. All reports were spot checked for any cosmetic issues as well.

SYS001.FMX Company Update
SCR30246
CRM Case No. – 1-12534

Previously, there had been a number of issues related to course matching. The reason for these problems was that both requisite and standard course matching use the course matching field, but have different methods to match the courses.

To resolve course-matching issues, the following changes have been made:

1. The label of the existing Company Option 'Course Matching' was changed to 'Min Std/Requisite Course Code Length.'

All standard and requisite course codes must have a minimum length of 'Min Std/Requisite Course Code Length'. (Existing functionality)

2. The pre-requisites and anti-requisites** matching logic was changed so that it no longer uses the course matching option in the company file.

When matching pre-requisite or anti-requisite courses the system uses the length of the requisite course code to determine how many characters will be used to make the match.

**Please note that there are two applications for anti-requisites ('Limit Anti-Requisites to Credits') in the company option:

- Type 1, where the student may not be scheduled into a course if the student has already taken the anti-requisite. (ie: Simulator)
- Type 2, where the user may be scheduled into the anti-requisite, but only one course/credit can be counted towards the student's diploma. (i.e.: Diploma)

Note: Standard course matching logic remains the same.

When finding a matching standard course record the system starts with the full credit/course code (ABC001) and searches standard courses for a match. If no match is found then the last character is removed (ABC00) and another search is made.

The practice of removing a character from the course code and then re-searching is repeated until the length of the course code (ABC001) is reduced to the length of the course matching company option.

SYS015.FMX eSIS User Maintenance
SCR35129
CRM Case No. – 1-23936

When adding a new user and attaching the All_ (U) Role to either a School user or a Central Officer user, an oracle error no longer displays and you can add the All_ (U) Role.

SYS016.FMX User Authority
SCR34222

You can now query in both upper and lower case successfully.

SYS017.FMX Educational Choice
SYS889.FMX Certification Status
SCR34613

A row now becomes highlighted when selected.

SYS020R.REP Security Access/Roles**SCR34346****CRM Case No. – 1-15643**

Even if the Report Group has "None" access, if there is a report within the group that has "Run" access, then that report will be listed below its corresponding report group. Previously, under the "Report Access" section of Security Access/Roles (SYS020R), it would not list the reports with "Run" access if the Report Group access was set to "None".

SYS044.FMX Associated Program Catchments**SCR34132****CRM Case No. – 1-18754**

The Program Type field on SYS044 (Associated Program Catchments) now displays the Program Type code for Programs where the code is greater than 3 positions. The size of the program type field was increased from 3 characters to 9.

SYS070.FMX PA Fields Translations**SYS071.FMX PA Menu Translations****CRM Case No. – 1-18992****SCR34217**

Two new esis front end forms were developed to assist the clients in their French/Spanish Translations in for Parent Assistant. The new forms allow the clients to enter the translation of their choice against the English Version for both Parent Assistant Menus and Parent Assistant Fields.

SYS155.FMX Valid Address Maintenance**SCR29568**

Previously, if the district did not have any valid address, users would get a message box with an error message "Error. SQL statement returns no rows for list item, 'addrver.catchment_code'. (Catchment). Now, the error message reads "Unable to Populate Catchment Codes".

SCR30564

Previously, using the "Tab" key, you could not tab to the buttons at the bottom of the form once the last field on the row was reached. Now, users are taken to the Details button, then the Add, Del, Save and Exit buttons once having tabbed across all the fields.

SYS171.FMX Screening Results**SCR33539 (BZ3656)****CRM Case No. – 1-17067**

Now, when entering a default value in SYS171, the value entered is automatically converted to an upper case 'y' or 'n'.

SYS265.FMX Standard Course Codes**SYS266.FMX Standard Course Detail****SCR33059 (SPS043)****CRM Case No. – 1-15667**

1. Previously, defaults were different if entering a new standard course through SYS266 and SYS265.

Changes have been made to the following fields and defaults will be the same if creating a new standard course through sys265 and sys266.

- Field Description SYS265/SYS266 Default
- Short Name Null
- Mark/Grade Type Mark Scale
- Language English
- Max Class Size Null
- Learning Hours Null
- Times for Credit 1

2. The English language was not populated if its code was not code 1 in Language Codes since the form had a hard coded value 1 for English for all clients. The initial value was modified from 1 to null so users can have any value in language codes for the English language.

SYS266.FMX Standard Course Detail**CRM Case No. – 1-25978****SCR35306 (HEAT #7457)**

On Standard Course Detail (SYS266) > External Test, if there is a test already tied to a course and the standard test is changed to 'Standard Test not Designated', the change is saved at the Enterprise level or District level.

Please note: Even though a user has the ability to change from a test to an option of 'Standard Test not Designated' now, if the user makes this change at the Enterprise level, the change will not be copied down to District level.

SYS272.FMX Status/Accommodation**SCR33348****CRM Case No. – 1-12527**

Changes can now be saved without entering an External Code.

SYS284.FMX Parental Permission**SCR28632****CRM Case No. – 1-12520**

Previously, SYS284 would produce the wrong pop-up message when attempting to save. Also there was no reminder to save if forgetting to save before clicking exit. Both these issues have been resolved.

SYS287.FMX Weapon Types**SCR34547 (767)**

You are now able to save changes when adding/updating external codes.

SYS500.FMX Year-End Transition**SCR34967**

Expected graduates (current grade 12, next grade GR) will be withdrawn by YET.

SYS500.FMX Year-End Transition
SCH170.FMX Daily Medications
SCH175.FMX Student Medications Detail
SCH170P.FMX Daily Medication Log
STU591.FMX Student Pre-Transition List
SCR34789

- SCH175: default is 'Show All Schools' unchecked.
- SCH170P: 'Show All Schools' is bolded.
- SCH170, SCH175: hints for 'Show All Schools' have been corrected.

SYS500:

1. YET will purge Student Activity Logs that are older than the threshold set by the user.
2. For cross-enrollment withdrawal, YET will use 'lv_DEFAULT_XENROL_WDR_CODE' instead of ln_withdraw_code as the reason code in step 7.

STU591:

If the checkbox 'Remove future cross enrolled homerooms on change of next home school' is not checked on SYS040, the system does not delete the homeroom records for the student at the future cross enrolled school (cross-enrollment created by stu185 other than pre-transition) when changing next school on STU591. It will delete only when the checkbox is checked.

SYS502.FMX Alternate School Transition
SCR34747

An oracle error is no longer generated when clicking the Print Log button after SYS502 is run.

SYS515.FMX Bus Route Students
SCR35366 (HEAT #7218)
CRM Case No. – 1-26045

Now, when two districts have the same bus route number for a bus route, a central office user as well as a super user are only able to see students that belong to the current school district and are assigned to that bus route.

SYS585.FMX Course Lengths/Start Dates
SCR35294 (BZ #5664)
CRM Case No. – 1-25620

Previously, when a user made a change to the Start date for a selected course length, the change was reflected instance wide, not just for the current selected school. This occurred for users with multi-school access (i.e. central office, itinerant) and single-school access (i.e. school users).

Now, when making a change to the Start date for a selected course length, the change is not reflected instance wide, but just for the current selected school

SYS651.FMX Federal Property
SCR33546 (BZ #3642)
CRM Case No. – 1-17072

Previously, when deleting an entry in the Federal Property System code, the entry would appear to be deleted successfully but would re-appear when re-entering the Federal Property system code screen. Now, deleting an entry, the entry is successfully deleted.

SYS683.FMX Waiver Types
SYS682.FMX Waiver Codes
SCR30114

Any change to Waiver Type now applies to the student Overall Status from the Immunization Fast Entry - STU230-screen.

SYS707.FMX Educational Handicaps**SCR30714**

On HP Platform only:

Tabbing over the fields using the "Tab" key now moves to the Save, Add, and Exit buttons.

SYS920.FMX Generic/Standard Student Import**SCR35453**

When importing a standardized testing file, there is no longer an oracle error and only import messages are generated.

SYS921.FMX Generic Standardized Testing Import Setup Screen**SCR35702**

When going to SYS921 by clicking Create Ad hoc definition on SYS920, the error message "SQL statement returns no rows for list item, CG\$CTRL.CIM_YEAR (CIM Year)." is no longer generated and the radio button Formula 2 under Method to Match Students is accessible.

SYS930P.FMX College/University Transfer File**SCR34551**

A change to the OCAS/OUAC was made for deleted courses. Previously, the system date was used for determining if a deleted course should be included or not in a transmission. The Transmission Run Date field was added to be used instead of the system date for determining if a deleted course will be included or not in the transmission selected. The field is only updateable for transmission 2, 3 and 4.

SCR34564

A change to the OCAS/OUAC was made for withdrawn and deleted courses.

- A Withdraw course is identified as a course which has a record in Credit details with a drop date.
- A Deleted course is identified as not having a record in Credit details but has a record in the activity log.

SYS940R.REP Students Withdrawn by Year-End Transition**SYS950R.REP School Changes Generated by Year-End Transition****SYS970R.REP Students Archived by Year-End Transition****SYS980R.REP Courses Aged by Year-End Transition****SYS982R.REP Course Selections not Aged****SCR34883**

Correct district names are appearing on the report title for all the above reports.

STU770R.REP Report Card - Elementary (ON)**STU771R.REP Elem. Report Card 2 (ON)****STU772R.REP Ontario Elementary Report Card****STU773R.REP Catholic School Grades 1 to 6 RC****SCR34974****CRM Case No. – 147-22540**

Now, the attendance text at the top of the Ontario report card reads 'Total Days Absent'.

SYS941R.REP Disadvantaged Codes**SCR34903**

Correct district names are now appearing on the report title.

SYS940R.REP Students Withdrawn by Year-End Transition
SYS950R.REP School Changes Generated by Year-End Transition
SYS970R.REP Students Archived by Year-End Transition
SYS980R.REP Courses Aged by Year-End Transition
SYS982R.REP Course Selections not Aged
SCR34883

Correct district names are appearing on the report title for all the above reports.

SYS992.FMX Performance Scales
SCR34770

- You can now update the Code field for a Performance/Effort if there are no child records related to this code. Please note that this means that user is able to update the code only if there are no records in the detail section of SYS992 related to this code.
- You are no longer be able to delete a performance/effort scale or change the performance/effort radio button if the scale is in use.

SYS992.FMX Performance Scales
CRM Case No. – 110-26060
SCR35307

You can now delete a brand new performance level record and if a performance level record within a performance scale is used by any elementary mark entry screen (SCH680/SCH681/SCH684), it cannot be deleted.

SYS993.FMX Curriculum Models
SCR34033

Previously, SYS993 for GRD/PRG/Except would allow you to exit the form without a save prompt and all additions and changes would be automatically saved incorrectly.

Now, you are presented with a save message when exiting the form rather than saving automatically.

SYS994.FMX Curriculum Model Details
SCR34054

The Set Teacher Access button was removed.

TAWSTART.FMX Teacher's Assistant Start Screen
SCR34705 (BZ #4165)

Previously, if a user copied the current year homerooms along with the additional teachers over to the next year, when a teacher who was the additional teacher for a homeroom entered the TA start screen and clicked the homeroom radio button, the homeroom that the teacher was designated as the additional teacher for would display twice (once for the current year and once for next year).

Now, if copying the current year homerooms along with the additional teachers over to the next year, when a teacher who is the additional teacher for a homeroom enters the TA start screen and clicks the homeroom radio button, only the current year homerooms display.

SCR35240

Now, when a user with a homeroom enters Teacher Assistant, oracle errors no longer appear.

TAWSTART.FMX Teacher's Assistant Start Screen
TAW215.FMX Alerts/Follow-Up Observations
CRM Case No. – 1-17025
SCR33698

Previously:

- If a user in the second semester entered an alert or follow up for a student, the teacher associated to the first semester homeroom that the student was in would receive the Teacher Alerts/Follow ups popup on the TA start screen and be able to see the alert or follow up on the Alerts/Follow-Up Observations screen (TAW215).
- If a user in second semester entered an alert or follow up for a student, the teacher associated to a team the student was in that has now ended would receive the Teacher Alert/Follow-Up popup and be able to see the alert or follow up on the Alerts/Follow-Up Observations screen (TAW215).

Note: When the student's name had the maximum number of characters possible, an oracle error would display upon entering TAWSTART screen.

Now:

- If a user in second semester enters an alert or follow up for a student, the teacher associated to the first semester homeroom that the student was in will not receive the Teacher Alerts/Follow ups popup on the TA start screen and will not see any alerts or follow ups for that student.
- If a user in second semester enters an alert or follow up for a student, the teacher associated to a team that has now ended in which the student was in will not receive the Teacher Alert/Follow-Up popup and will not see any alerts or follow ups on the Alerts/Follow-Up Observations screen (TAW215) for that student.

Note: When the student's name has the maximum number of characters possible, an oracle error is not generated upon entering TAWSTART screen.

TAW036.FMX View Parent Assistant Messages
SCR34477

Carriage returns from the text of a Parent Assistant message no longer display as boxed on the View Parent Assistant Messages.

TAW060.FMX Teacher Enter Grade/Comments
SCR32844

The label "Grades over Maximum" is no longer overlapping on the "s" for "Failing Grades" and overlapping on top of "Call Avg".

TAW070.FMX TA Assignments
SCR33619

CRM Case No. – 1-17136

Previously, through the Assign Classes form TAW070 (Accessed through 'Assign This Assignment To Other Classes' button), users were able to remove assignments and marks from classes the assignment was copied to, without warning, by unselecting a class.

Now, warning messages display indicating that assignments and marks will be removed when unselecting classes on the Assign Classes form.

**TAW090R.REP TA Reporting Period Marks Report
SCR34485**

Long reporting period names are no longer overwriting text on the TA Reporting Period Marks Report.

SCR35565

Now, when the teacher prints out the TA Reporting Period Marks report in Teacher Assistant, the weight value is the weight value as seen on the TA Reporting Period Marks screen in TA.

TAW150.FMX Student Absences

CRM Case No. – 1-23920

SCR35174 (L1144)

Now, no matter which date format is used, you can successfully enter the Student absence screen (TAW150) in TA without an oracle error message displaying.

TAW150.FMX Student Absences

SCR35633

Now, if a user enters the Student Absences (TAW150) screen without selecting a class, team or homeroom on the TA start screen, when clicking OK on the error message (regarding selecting a team, homeroom or class), the form will close. Previously, after clicking OK on the error message (regarding selecting a class, team or homeroom), you could query for students you should not have access to.

TAW215.FMX Alerts/Follow-Up Observations

CRM Case No. – 1-17397

SCR33714

Previously, when a teacher clicked the Other Features and then clicked the alerts/Follow Ups button the alerts section of the screen did not populate with student alerts and an oracle error FRM-40735: PRE-QUERY trigger raised unhandled exception ORA-06502 occurred. An oracle error no longer appears and the alerts section is populated with the alert for students.

TAW405R.REP Class List

TAW217R.REP Class Record

CRM Case No. – 1-14589

SCR34478 (BZ 2076)

The teacher's name no longer appears in the Hrm column of the Class List and Class Record reports if they have a hyphen in their name.

TAW800.FMX Preferences

SCR35564

Previously, a user could query and update all classes in the instance (TAW_PREP_CLASSES table) through Teacher Assistant Preferences by adding a new prep and querying in the Select Classes box prior to entering a title. As well, a user could select a class from a prep that had assignments entered and bypass the hard stop check for child assessment records by deleting using the Shift+F6 function.

Both of these issues have been resolved and users are no longer able to query and/or update classes they do not have access to nor can they remove classes with child assessments existing.

TAW910P.FMX Academic Progress
CRM Case No. – 1-18365
SCR34009

The two options 'Group by Unit of Study' and 'Group by Assessment Type' properly display the terminology configured for Category and Assessment from the TA Configuration screen TAW110.FMX TA Configuration and are no longer hard coded.

TAW910RP.REP Progress Report Portrait
TAW910R.REP Academic Progress
TAW911R.REP Progress Report
TAW911RP.REP Progress Report
TAW912RP.REP Progress Report
TAW912R.REP Progress Report
TAW913R.REP Progress Report
TAW913RP.REP Progress Report
TAW940R.REP Elementary Progress Report

SCR34239

CRM Case No. – 1-19069

Now, the Academic Progress Reports (TA) are properly displaying the correct averages when using the 'TAVG% Include Weight' and posting type = Report Cycle preference options.

SCR34097

Diploma Category Assignment on Courses were moved to CREDITS when the course is dropped; also the Diploma Override checkbox gets checked.

TAW910RP.REP Progress Report Portrait
TAW910R.REP Academic Progress
TAW911R.REP Progress Report
TAW911RP.REP Progress Report
TAW912RP.REP Progress Report
TAW912R.REP Progress Report
TAW940R.REP Elementary Progress Report

SCR34378

CRM Case No. – 1-15421

Previously, when selecting the progress report from the Student Information System Reports screen without selecting any class, reporting period, or student on the Progress report parameter form, all classes in the school would display on the report that printed. The report that printed would be either TAW910R, TAW910RP, TAW911R, TAW911RP, TAW912R, TAW912RP depending on the option that was selected. This also occurred when going to the Elementary Progress Report parameter form, and not filling in any parameter options on the parameter form and printing the report TAW940R . This resulted in the report taking a long time to display.

Now, when selecting the progress report from the Student Information System Reports screen and not selecting any class, reporting period, or student on the Progress report parameter form, only classes that have assessments attached to them will display on the report. The report that displays will be either TAW910R, TAW910RP, TAW911R, TAW911RP, TAW912R, TAW912RP, TAW940R depending on the selection on the parameter. This results in the report appearing more quickly. In addition, other changes were made so that the reports TAW910R, TAW910RP, and TAW940R now display more quickly.

TAW920R.REP Mark Entry Report
TAW060.FMX Teacher Enter Grade/Comments
SCR34178

Previously, TAW060 and TAW920R could not accommodate student names that were too long. If a student's name was too long, the report would have a page break in the middle of the student's name and the rest of the name, along with the rest of the students, were moved to the second page.

SCR34316

The following issues have been resolved:

- The headings on the second page did not match the headings on the first page. The second page was missing the headings Student Name, Mark, and Comment as seen on the first page.
- The Headings for the Mark and Percent fields overlapped one another.
- There should have been a space between the title Class Avg and the actual value.

TAW921R.REP Report Cycle Marks and Comments
SCR34427

The Student Name, Mark and Mark Comment headings are now displaying on subsequent pages of the Report Cycle Marks and Comments report TAW921R.

TAW925P.FMX Missing Assignment Report (TA)
TAW925R.REP Missing Assignment Report (TA)
SCR34411

The following items have been corrected on the Missing Assessments parameter form TAW925P and report TAW925R:

Parameter form:

1. When multiple classes were selected, the same assignment types were appearing more than once in the Assessment Type drop-down menu. This was due to the assessment types coming from different preps. To distinguish, the prep description was added before the assessment type in the format of prep/assessment. Example: Prep 1/Quiz.
2. The Select Classes Multiple pop-up form heading has been changed to 'Select Classes'.
3. The Select Students Multiple pop-up form heading has been changed to 'All students within the class'.
4. The labels and hints for the following fields have been corrected to dynamically pull the Assessment Display Name from TA Configuration TAW110: Assessment Type, Assessment From Date, Assessment To Date
5. The hint on the Select Student drop-down menu has been changed to 'Student's last name, first name'.

Report:

6. The version number now prints at the same level as the form name.
7. The student name field has been increased to prevent long student names from cutting off.

TAW930R.REP Observation Report (TA)
SCR34248

Long student names no longer overlap the next line heading on the Observations Report.

TAW945P.FMX Failure Reporting Periods Report
SCR33948 (CR4262)
CRM Case No. – 1-18179

The Failing Reporting Term report now prints regardless of whether a second teacher is scheduled for the course or not. Previously, when a course section had a second teacher assigned in the Schedule portion of Course Section Maintenance, the Failing Reporting Term report TAW945R would not print and the following Oracle error appeared: FRM-40735: WHEN-BUTTON-PRESSED trigger raised unhandled exception ORA-01422

VEERS03.FMX VEERS Export (WI)

SCR35277

CRM Case No. – 107-25977

A web issue that left the program hanging when running verification on one student was resolved.

SCR35107

CRM Case No. – 1-23734

1. A script was created for a new table that will store the VEERS output for each student. This increases the performance of VEERS reporting by doing all the processing on the server and not returning large strings for each student.

2. Another script inserts records into veers_procedure_management. Running this script creates the spool file C:\35107.insert_into_veers_procedure_management.txt

3. SCHOOL_CODE now returns the last school the student was in the previous year.

4. When determining previous years school, if the last registration archive school equals the last Admission school, a warning is inserted into the sis error log. If this happens a message informs you to view the error log. The Verification selection now uses SRGETPPL and the Verification Button now calls SRVVIEW.
